

## 6mm 201 Stainless Steel Sheet 20mm Width DIN Decorative Steel Strip White Sliver Color

### Our Product Introduction

#### Basic Information

- Place of Origin: Jiangsu
- Brand Name: Hailian
- Model Number: 201
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

#### Product Specification

- Name: SS201 Stainless Steel Strip
- Grade: 201
- Thickness: 6mm
- Type: Strip
- Surface: BA
- Size: Customized
- Color: Sliver White
- Application: Container Material
- Standard: JIS
- Technique: Cold-rolled
- Highlight: 6mm 201 Stainless Steel Sheet,  
201 Stainless Steel Sheet 20mm,  
DIN Decorative Steel Strip

## Product Description

SS201 JIS BA Stainless Steel Strip 6mm Thickness 20mm Width Cold-Rolled White Sliver Color Natural Surface

### Product Description

Stainless steels are steels with a minimum of 10.5% chromium. They gain their resistance to corrosion from a thin, tenacious surface layer of chromium oxide. If the oxide layer is physically damaged there is rapid regeneration of the layer, thus preserving the corrosion resistance. Type 201 Stainless Steels is an austenitic chromium-nickel-manganese stainless steel which was developed to conserve nickel. Type 201 is a lower cost alternative to conventional Cr-Ni stainless steels such as 301 and 304. The annealing temperature for Type 201 is between 1850-2000°F. Rapid cooling through the carbide precipitation range (1500-800 °F) is necessary to keep the carbides in solution and prevent sensitization. Type 201 is not hardenable by thermal treatment; it is only hardenable by cold working. Type 201 can be welded by all conventional methods applied to 18 percent chromium, 8 percent nickel steels. Filler metal of the conventional chromium-nickel analyses can be used. Like other austenitic stainless steels where carbon is not controlled below 0.03%, Type 201 is susceptible to intergranular corrosion in the weld heat affected zone. Steel strip, also known as steel strip, is within 1300mm in width and slightly different in length according to the size of each roll. The strip steel is generally supplied in coils, which has the advantages of high dimensional accuracy, good surface quality, easy processing, material saving and so on.

### Product Properties

Commodity	201 Stainless Steel Strip Prime Cold Rolled SUS 304 BA 2B Finish Surface
Grade	201 304
Brand	TISCO ,BAOSTEEL,POSCO,JISCO,LISCO
Certification	SGS,BV,IQI,TUV,ISO,etc
Thickness	0.1-3mm
Width	10-600mm
Length	as per customers' requirements
Surface	normal
Standard	JIS,AISI,ASTM,GB,DIN
Delivery time	About 15days or based on the sales contract
MOQ	1 Ton
Advantages	Showing the splendor of your quality, wearresistant as well , strong corrosion resistance and decorative effect, durable and beautiful in good taste.

### Company Profile

Shandong Hailian Steel Group has deeply engaged in Chinese domestic market for over 10 years. We established perfect reputation and deep co-operations with large number of reliable partners. Our high-tech factory and well-trained workers are able to manufacture best quality and highly customized metal products. The professional sales team guarantees the perfect trading experience with Hailian.

The goal of Hailian is doing our best to offer our clients best service and product quality with lowest price. We are looking forward to deal business with you!

Our company is willing to provide our copies of company registration certificate and Chinese exporting registration for you to view. These certificates are under Chinese Trading Law effect. They can help you officially check our company's capability and status.

## FAQ

1. Is customization available?

Our factory's expert equipment and highly-trained workers are capable of manufacturing highly customized products. Please feel free to discuss with us about your customized requirements, we can surely meet your needs.

2. Which payment method can I choose?

Our company accepts all types of secured payment methods. Bank transaction, Trading Assurance, Paypal and etc are all available from us. Please feel free to contact us about your preferred payment method.

3. Is sample providing service available?

Our company provides free samples to our clients. We usually also cover the sample shipping cost. Please feel free to order a sample from us.
