

0.5mm 316L 321 Stainless Steel Coil 25mm Width BA Finish For Construction

Our Product Introduction

Basic Information

- Place of Origin: Jiangsu
- Brand Name: Hailian
- Model Number: 201
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

Product Specification

- Name: SS201 Stainless Steel Strip
- Grade: 201
- Thickness: 0.5mm
- Type: Strip
- Surface: BA
- Size: Customized
- Color: Bright
- Application: Construction Material
- Standard: ASTM
- Technique: Cold-rolled
- Highlight: 0.5mm 321 Stainless Steel Coil,
321 Stainless Steel Coil 25mm,
316L Stainless Steel Plate BA

Product Description

SS321 BA Stainless Steel Strip ASTM 0.5mm Thickness 25mm Width Cold-Rolled Bright Color Natural Surface

Product Description

Stainless Steel 321 Strip is austenitic steel stabilized by the addition of titanium element. These titanium based strips are not sensitive to intergranular corrosion after heating. UNS S32100 Stainless Steel Strip is mainly used for applications in temperature range about 900°C. As they offer excellent corrosion resistance, high strength and phase stability with resistance to aqueous corrosion. Strip steels are manufactured by hot rolling to thicknesses not less than 2 mm, and then finally cold rolled to the required final thickness. Since cold forming (e.g. by deep drawing, stretch forming or bending) is a widely used application for low-carbon strip steels, a final recrystallization anneal is applied. 321 stainless steel strip industry application: It is used for outdoor outdoor machines with high requirements for resistance to grain boundary corrosion in chemical, coal and petroleum industries, heat-resistant parts of building materials and parts with difficult heat treatment.

Hot Rolled Stainless Steel 321 Strips are hardened through annealing process and quenched in water to attain maximum corrosion resistance. These hot rolled strips are cannot be hardened by thermal treatment. Our Cold Rolled Stainless Steel 321 Strips are produced using billet or slabs passing through the cold rolled and annealed. SS 321 Strips have good weldability and formability; they can easily weld without using filler material.

Furthermore, Stainless Steel 321 Strips are broadly used in various industries including chemical processing, heat exchangers, furnace, food processing, pharmaceuticals, and petrochemicals, etc. We provide these SS 321 Strips in standard as well as customized dimensions as per the client's requirement. Strip steels are manufactured by hot rolling to thicknesses not less than 2 mm, and then finally cold rolled to the required final thickness. Since cold forming (e.g. by deep drawing, stretch forming or bending) is a widely used application for low-carbon strip steels, a final recrystallization anneal is applied. 321 stainless steel strip industry application: It is used for outdoor outdoor machines with high requirements for resistance to grain boundary corrosion in chemical, coal and petroleum industries, heat-resistant parts of building materials and parts with difficult heat treatment.

Product Properties

Grade	201/202/301/303/304/304L/316/316L/321/310S/401/409/410/420J1/420J2/430/439/443/444/2205/2507
Surface Finish	2B, BA, NO.1, NO.4, 8K, HL, Embossing, Satin, Mirror, ect
Standard	JIS/SUS/GB/DIN/ASTM/AISI/EN
Technique	Cold Rolled; Hot Rolled
Thickness	0.3-4mm cold rolled; 3-16mm hot rolled; Customized according to customer requirements
Width	10-600mm
Application	Interior/Exterior decoration; Architectur; Evevator; Kitchen; Ceiling; Cabinet; Advertising nameplate; Roof structure; Shipbuilding

Lead Time	7-15 working days after the receipt of 30% deposit
Payment Terms	30% TT for deposit, 70% TT / 70% LC at sight balance before shipment
Price Terms	FOB, EXW, CIF, CFR
Packing	Wooden Pallet or according to customer's requirements

Company Profile

Shandong Hailian Steel Group has deeply engaged in Chinese domestic market for over 10 years. We established perfect reputation and deep co-operations with large number of reliable partners. Our high-tech factory and well-trained workers are able to manufacture best quality and highly customized metal products. The professional sales team guarantees the perfect trading experience with Hailian.

The goal of Hailian is doing our best to offer our clients best service and product quality with lowest price. We are looking forward to deal business with you! Our company is willing to provide our copies of company registration certificate and Chinese exporting registration for you to view. These certificates are under Chinese Trading Law effect. They can help you officially check our company's capability and status.

FAQ

1. What is your payment terms?

Our company prefers 30% TT before inspection and the rest 70% against BL. However, our price term is negotiable. Multiple payment terms are available from us.

2. Which payment method can I choose?

Our company accepts all types of secured payment methods. Bank transaction, Trading Assurance, Paypal and etc are all available from us. Please feel free to contact us about your preferred payment method.

3. What products and materials do you supply?

Our company mainly supplies all catalogs and all grades of steel and stainless steel products. Coils, strips, sheet, pipes, bars, beams, flanges and other customized products. Tin coating, Ti coating, galvanization and other surface treatments are also available.

Other than steel products, we also have high production capacity and hold large ready stock of all kinds of copper and aluminum products. Please feel free to consult us about any related products above, we can surely meet your requirements.
