

JIS 2B 316 304 Stainless Steel Strip Coil Band Cold Rolled 40mm Width

Our Product Introduction

for more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Jiangsu
- Brand Name: Hailian
- Model Number: 304
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 1000 ton per month

Product Specification

- Name: SS304 Stainless Steel Strip
- Grade: 304
- Thickness: 4mm
- Type: Strip
- Surface: 2B
- Size: Customized
- Color: Bright Color
- Application: Container Material
- Standard: JIS
- Technique: Cold-rolled
- Highlight: JIS 304 Stainless Steel Strip Coil,
2B 304 Stainless Steel Strip Coil,
316 Stainless Steel Band Cold Rolled

Product Description

SS304 JIS 2B Stainless Steel Strip 4mm Thickness 40mm Width Cold-Rolled Bright Color

Product Description

304 Stainless Steel Strip Features

Weldability: 304 stainless steel strip has good weldability. These strips products can be used for vessel parts, stainless steel welding pipes, stainless steel flexible hose and corrugated pipe, etc.

Heat Resistance: Heat resistance means that 304 stainless steel strip can still maintain its excellent physical and mechanical properties at high temperatures conditions.

Corrosion Resistance: When the amount of chromium atoms in the steel is not less than 12.5%, the electrode potential of the steel can be abruptly changed from a negative potential to a positive electrode potential. Prevent electrochemical corrosion.

304 stainless steel strip is the most widely used chromium-nickel stainless steel strip.

It has good corrosion resistance, heat resistance, low temperature strength and mechanical properties.

This strip has good hot workability such as stamping and bending without heat treatment. It is resistant to corrosion in the atmosphere.

It is suitable for food processing line, storage and transportation, plate heat exchangers, bellows, household products, auto parts, medical appliances, building materials, chemicals industry, food industry, agriculture, ship parts, etc.

304 stainless steel is a nationally recognized food grade stainless steel material.

BA (Bright Annealed): Sometimes specified as "Bright Annealed Stainless Steel", is a bright, cold-rolled, reflective finish retained by final annealing in a controlled atmosphere furnace. It is highly reflective and has the same appearance as a mirror. A final light rolling pass through polished rolls produces a smooth, reflective surface, excellent for decorative applications.

2B Finish: Cold rolled, heat treated, pickled, pinch passed. The most common cold rolled mill finish. Dull grey slightly reflective finish. Can be used in this condition or frequently is the starting point for some polished finishes.

2D Finish: A dull finish that is produced by cold rolling followed by annealing and descaling. Used in deep drawn objects which are often polished after fabrication.

Polishing Bright Finish: Mechanical Polishing: This process removes surface imperfections caused by grinding and other processing operations. In addition, it provides a moderate degree of luster to the surface which can be further enhanced by subsequent buffing operations using grease or oil emulsions with rouge or aluminum oxide compounds. The typical Vickers hardness for the strip material must determinate after annealing process (Hardness Vickers Typical Range: 160HV-600HV). But the soft materials of 304 stainless steel strip Vickers hardness is from 160HV to 190HV.

Product Properties

Product Name	Stainless Steel Strip
Length	Customized
Width	1000-2000mm or as required
Thickness	0.3-120mm or as required
Standard	AISI,ASTM,DIN,JIS,GB,JIS,SUS,EN,etc

Technique	Hot rolled / cold rolled
Surface Treatment	2B or according to customer requirement
Thickness Tolerance	±0.01mm
Material	201, 202, 301, 302, 303, 304, 304L, 304H, 310S, 316, 316L, 317L, 321, 310S 309S, 410, 410S, 420, 430, 431, 440A, 904L
Application	It is widely used in high temperature applications, medical devices, building materials, chemistry, food industry, agriculture, ship components. It also applies to food, beverage packaging, kitchen supplies, trains, aircraft, conveyor belts, vehicles, bolts, nuts, springs, and screen.

Company Profile

Shandong Hailian Steel Group has deeply engaged in Chinese domestic market for over 10 years. We established perfect reputation and deep co-operations with large number of reliable partners. Our high-tech factory and well-trained workers are able to manufacture best quality and highly customized metal products. The professional sales team guarantees the perfect trading experience with Hailian.

The goal of Hailian is doing our best to offer our clients best service and product quality with lowest price. We are looking forward to deal business with you!

Our company is willing to provide our copies of company registration certificate and Chinese exporting registration for you to view. These certificates are under Chinese Trading Law effect. They can help you officially check our company's capability and status.

FAQ

1. What is your payment terms?

Our company prefers 30% TT before inspection and the rest 70% against BL. However, our price term is negotiable. Multiple payment terms are available from us.

2. Is customization available?

Our factory's expert equipment and highly-trained workers are capable of manufacturing highly customized products. Please feel free to discuss with us about your customized requirements, we can surely meet your needs.

3. What products and materials do you supply?

Our company mainly supplies all catalogs and all grades of steel and stainless steel products. Coils, strips, sheet, pipes, bars, beams, flanges and other customized products. Tin coating, Ti coating, galvanization and other surface treatments are also available.

Other than steel products, we also have high production capacity and hold large ready stock of all kinds of copper and aluminum products. Please feel free to consult us about any related products above, we can surely meet your requirements.
