

AISI 2 Inch Wide Metal Strips 2mm Thick 35mm Width 304L Stainless Steel Plates

Our Product Introduction

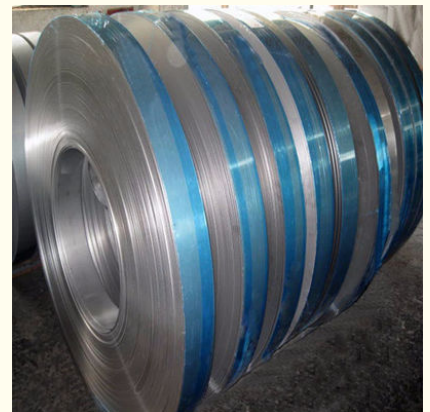

Basic Information

- Place of Origin: Jiangsu
- Brand Name: Hailian
- Model Number: 201
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

Product Specification

- Name: SS201 Stainless Steel Strip
- Grade: 201
- Thickness: 2mm
- Type: Strip
- Surface: 2B
- Size: Customized
- Color: Bright
- Application: Construction Material
- Standard: AISI
- Technique: Cold-rolled
- Highlight: AISI 2 Inch Wide Metal Strips,
2 Inch Wide Metal Strips 2mm,
304L Stainless Steel Plates

Product Description

SS201 2B Stainless Steel Strip AISI 2mm Thickness 35mm Width Cold-Rolled Bright Color Natural Surface

Product Description

Stainless steel strip 2mm thickness is a very common industrial material. Stainless steel strip 2mm thickness has excellent mechanical properties, good corrosion resistance and better toughness than stainless steel plates with the same hardness. The stainless steel strip 2mm thickness is polished, the surface is smooth and beautiful, the wear resistance is high, the plasticity is good, it can be made of various shapes, the installation is convenient, and it saves time and effort. Stainless steel strip 2mm thickness means that the stainless steel narrow coil has a thickness of 2 mm, which is a common thickness for most industries. Stainless steel strip 2mm thickness is just one of many options for thicknesses for various applications, such as construction structures, welded pipes and tubes, and flat bars materials. Compared with other types of stainless steel strips products, stainless steel strip 2mm thickness has many advantages: Better Corrosion Resistance: Generally speaking, the material of stainless steel strip 2mm thickness will not rust even in a humid environment or underwater. The surface of stainless steel strip 2mm thickness is very easy to clean: any dirt on the surface can be easily cleaned and rinsed with water. High temperature resistance: High temperature will not cause deformation or discoloration of stainless steel strip 2mm thickness, so it can be used in high-temperature environments without being damaged by fire. High strength: The strength of stainless steel strip 2mm thickness is very high, and it is not easy to deform under normal conditions.

Stainless steel strip 2mm thickness refers to the stainless steel narrow coil with a thickness of 2 mm. It is the most widely used and one of the thinnest stainless steel narrow coil. Generally it can be divided into hot rolled, cold rolled, and cold rolled stainless steel strips. Stainless steel strips 2mm thickness are mainly used for deep processing in industrial production and daily life, such as automobile, petrochemical industry, medical treatment, building materials, food industry and so on. There are many grades of 2mm thickness stainless steel strips such as 201, 202, 301, 304, 316L, 317L and duplex 2205. Among them, 304 is the most commonly used grade of stainless steel strips at present. In addition to the production of various grades of stainless steel strips, we also can process various surface finishes according to customer's requirements. These processes include polishing (6K/8K/No4), grinding (HL), sandblasting (SB), hairline (HL), etching (8K), embossing (3D) and color coating (Ti).

Product Properties

Grade	201/202/301/303/304/304L/316/316L/321/310S/401/409/410/420J1/420J2/430/439/443/444/2205/2507
Surface Finish	2B, BA, NO.1, NO.4, 8K, HL, Embossing, Satin, Mirror, ect
Standard	JIS/SUS/GB/DIN/ASTM/AISI/EN
Technique	Cold Rolled; Hot Rolled
Thickness	0.3-4mm cold rolled; 3-16mm hot rolled; Customized according to customer requirements
Width	10-600mm
Application	Interior/Exterior decoration; Architectur; Evevator; Kitchen; Ceiling; Cabinet; Advertising nameplate; Roof structure; Shipbuilding

Lead Time	7-15 working days after the receipt of 30% deposit
Payment Terms	30% TT for deposit, 70% TT / 70% LC at sight balance before shipment
Price Terms	FOB, EXW, CIF, CFR
Packing	Wooden Pallet or according to customer's requirements

Company Profile

Shandong Hailian Steel Group has deeply engaged in Chinese domestic market for over 10 years. We established perfect reputation and deep co-operations with large number of reliable partners. Our high-tech factory and well-trained workers are able to manufacture best quality and highly customized metal products. The professional sales team guarantees the perfect trading experience with Hailian.

The goal of Hailian is doing our best to offer our clients best service and product quality with lowest price. We are looking forward to deal business with you! Our company is willing to provide our copies of company registration certificate and Chinese exporting registration for you to view. These certificates are under Chinese Trading Law effect. They can help you officially check our company's capability and status.

FAQ

1. Which payment method can I choose?

Our company accepts all types of secured payment methods. Bank transaction, Trading Assurance, Paypal and etc are all available from us. Please feel free to contact us about your preferred payment method.

2. Is sample providing service available?

Our company provides free samples to our clients. We usually also cover the sample shipping cost. Please feel free to order a sample from us.

3. What products and materials do you supply?

Our company mainly supplies all catalogs and all grades of steel and stainless steel products. Coils, strips, sheet, pipes, bars, beams, flanges and other customized products. Tin coating, Ti coating, galvanization and other surface treatments are also available.

Other than steel products, we also have high production capacity and hold large ready stock of all kinds of copper and aluminum products. Please feel free to consult us about any related products above, we can surely meet your requirements.
