

7mm Thick Mild Steel Base Plate Decorative Steel Sheet Q235 1500*6000mm ISO

Our Product Introduction

for more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Jiangsu
- Brand Name: Hailian
- Model Number: Q235
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

Product Specification

- Name: Q235 Carbon Steel Plate
- Grade: Q235
- Length: 6000mm
- Type: Sheet/Plate
- Thickness: 7mm
- Width: 1500mm
- Color: Black
- Application: Decoration Use
- Standard: SUS
- Technique: Hot - Rolled
- Highlight: **Mild Steel Base Plate ISO,
7mm Mild Steel Base Plate,
Decorative Steel Sheet 1500*6000mm**

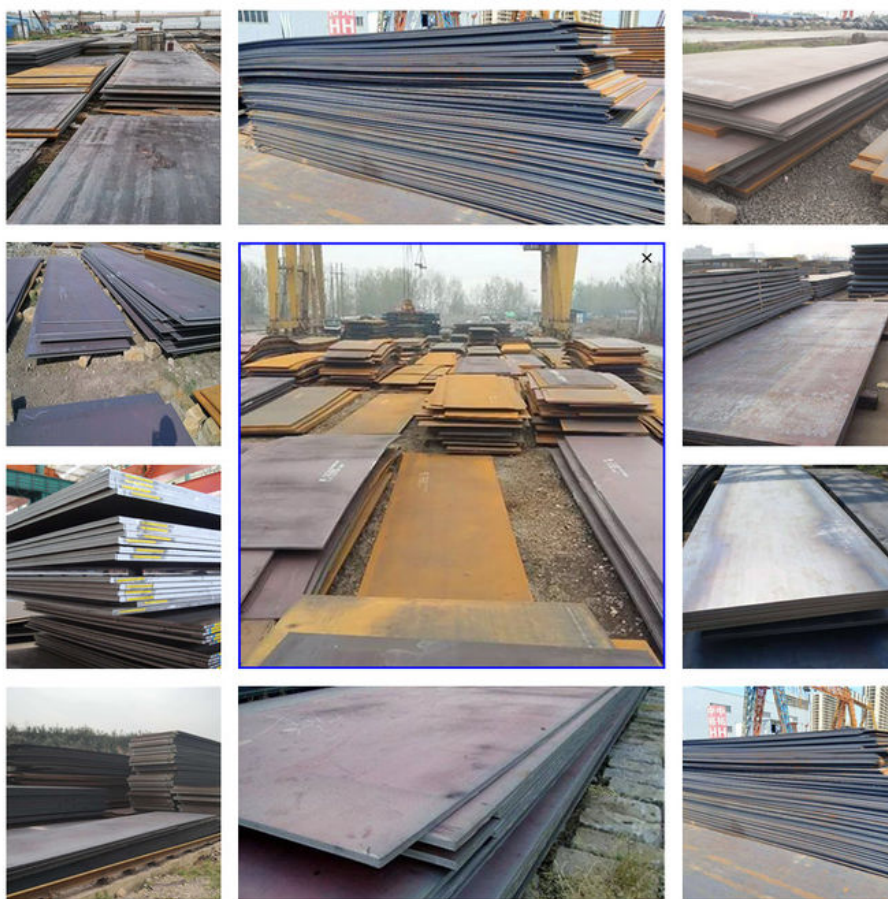

Product Description

Q235 SUS Carbon Steel Plate 7mm Thickness 1500 * 6000 mm Size Black Color Decoration Use Hot - Rolled

Product Description

Q235 steel is a plain carbon structural steel which is widely used in China. Q235 material in Chinese standard GB/T 700 is divided into 4 quality grades: **Q235A, Q235B, Q235C and Q235D**; Density of this steel is 7.85 g/cm³ (0.284 lb/in³), tensile strength is 370-500 MPa (54-73 ksi); yield strength is 235 MPa (34 ksi) for steel bar diameter or plate thickness ≤ 16mm. Since it is mild steel, the material is commonly used directly without heat treatment. Q235 material has moderate strength, in the case of higher strength requirements, **Q275** or high-strength low alloy structural steel **Q355** (former **Q345**) can be selected. Q235 steel has good plasticity, toughness and weldability, as well as a moderate strength, good cold bending performance. Q235 material is commonly rolled into wire rod or round steel, square steel, flat steel, angle steel, I beam, channel steel, other sections and steel plates. These products are widely used in construction and engineering welded structures, to make steel bars or build factory buildings, high voltage transmission towers, bridges, vehicles, boilers, containers, etc., and also used as a mechanical part with less demanding performance such as less stressed rods, connecting rods, screws, nuts, ferrules, brackets, and stands, etc. GB Q235B mild Steel is chinese standard Q235 steel series of low carbon structural steel, Q235 steel series have A, B, C, D, E quality grade. GB Q235B steel is equivalent with the European standard of DIN EN S235JR. Q235 steel is a plain carbon structural steel which is widely used in China. Q235 material in Chinese standard GB/T 700 is divided into 4 quality grades: Q235A, Q235B, Q235C and Q235D; Density of this steel is 7.85 g/cm³ (0.284 lb/in³), tensile strength is 370-500 MPa (54-73 ksi); yield strength is 235 MPa (34 ksi) for steel bar diameter or plate thickness ≤ 16mm. Since it is mild steel, the material is commonly used directly without heat treatment. Product Properties

PRODUCT DESCRIPTION	
Feature	A) OEM & ODM orders are accepted
	B) Best price
	C) High quality
	D) Prompt delivery
	E) Manufacture according to the sizes and design of customers
	F) Best service
	G) Certification: ISO9001-2008

Product Specs	A: Sheet 0.2 mm - 4 mm
	B: Thick Plate 4 mm - 60 mm
	C: More Thick Plate 60 mm - 115 mm
Width	Sheet: 500 mm- 1500 mm
	Thick Plate: 600 mm- 3000 mm

Company Profile

Shandong Hailian Steel Group has deeply engaged in Chinese domestic market for over 10 years. We established perfect reputation and deep co-operations with large number of reliable partners. Our high-tech factory and well-trained workers are able to manufacture best quality and highly customized metal products. The professional sales team guarantees the perfect trading experience with Hailian.

The goal of Hailian is doing our best to offer our clients best service and product quality with lowest price. We are looking forward to deal business with you!

Our company is willing to provide our copies of company registration certificate and Chinese exporting registration for you to view. These certificates are under Chinese Trading Law effect. They can help you officially check our company's capability and status.

FAQ

1.What products and materials do you supply?

Our company mainly supplies all catalogs and all grades of steel and stainless steel products. Coils, strips, sheet, pipes, bars, beams, flanges and other customized products. Tin coating, Ti coating, galvanization and other surface treatments are also available.

Other than steel products, we also have high production capacity and hold large ready stock of all kinds of copper and aluminum products. Please feel free to consult us about any related products above, we can surely meet your requirements.

2.Why should I choose you?

Our company has deeply engaged in metal material market for over 15 years. We established perfect reputation world-widely. Craftsmanship spirit is the fundamental of Xuda Steel since we are established. Xuda Steel keeps our products as highest quality and lowest price to maintain our self-competitive. Proving our clients with best trading experience is the goal we always insist of.

3.How can I make sure you are a reliable supplier?

Our company is willing to provide our copies of company registration certificate, registration and Chinese exporting registration for you to view. These certificates are under Chinese Trading Law effect. They can help you officially check our company's capability and status.

On the products' side, certificates as Mill Test Certificate(MTC), Third Party Material Quality Conformity Certificate and other required certificates are available before the order. Samples are also available from us for you to test in your own testing facility. Xuda Steel also supports third-party inspection before shipping. Xuda Steel also welcomes a company tour for you to check our factory status.
