

30mm Thick Cold Rolled Mild Steel Plate 1219*2438mm A283 Carbon Steel Plate Dark Color

Our Product Introduction

Basic Information

- Place of Origin: Jiangsu
- Brand Name: Hailian
- Model Number: Q195b
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

Product Specification

- Name: Q195b Carbon Steel Plate
- Grade: Q195b
- Length: 2438mm
- Type: Sheet/Plate
- Thickness: 30mm
- Width: 1219mm
- Color: Black
- Application: Construction Use
- Standard: ASTM
- Technique: Hot - Rolled
- Highlight: 30mm Cold Rolled Mild Steel Plate,
Cold Rolled Mild Steel Plate 1219*2438mm,
A283 Carbon Steel Plate

Product Description

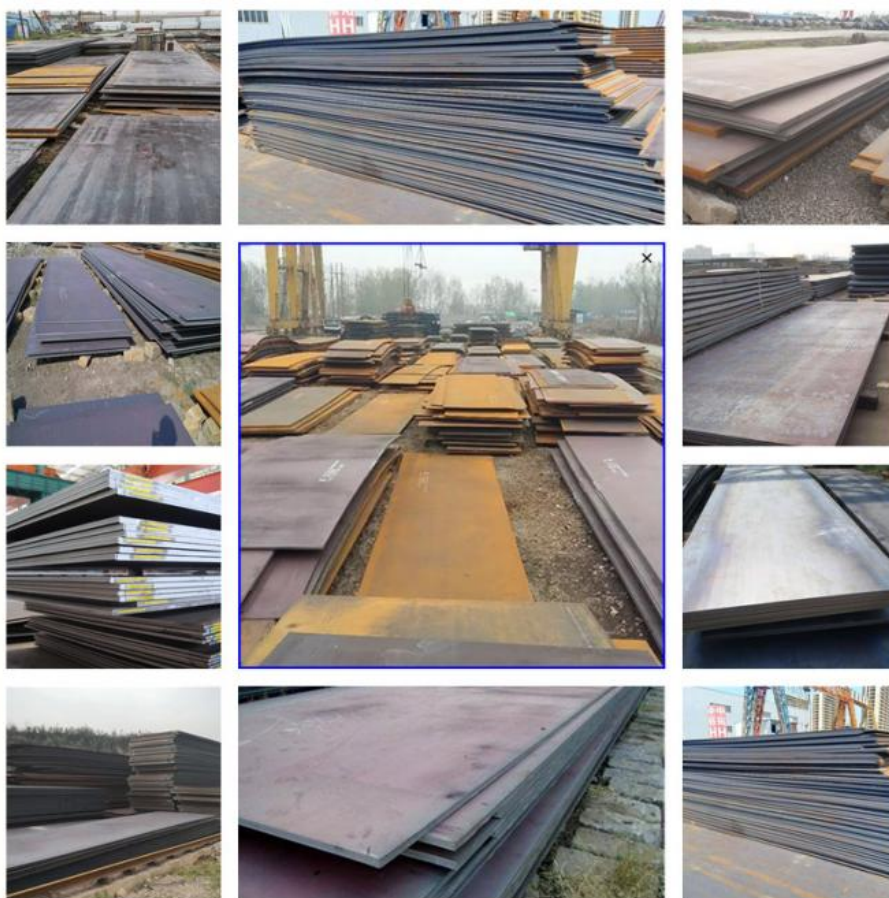

Q195b ASTM Carbon Steel Plate 30mm Thickness 1219 * 2438 mm Size Dark Color Construction Use Hot - Rolled

Product Description

Carbon steel is mainly classified by name: pig iron, carbon structural steel, high quality carbon structural steel, low alloy structural steel, alloy structural steel, spring steel and bearing steel, tool steel, stainless steel and heat resistant steel and so on. low carbon steel plate (low carbon steel plate) is a kind of material which is used a lot. It is divided into ordinary low carbon steel plate and special steel plate, including low alloy high strength steel and corrosion and heat resistance laminated steel plate. Ordinary low carbon steel plate is divided into cold rolled and hot rolled two kinds, cold rolled steel plate surface quality, thickness and size accurate, mostly used in the manufacture of body and so on. Hot rolled plate is used to manufacture the frame and so on. The type of steel plate is usually divided into three kinds according to its thickness: thick plate (above 6mm), medium thick plate (3-6mm) and thin plate (below 3mm). In terms of plate making process, low carbon steel plate can be divided into cold rolled and hot rolled two. Hot rolling alone can produce about 1.2mm low carbon steel plate and about 2mm stainless steel plate, thinner sheet is made by cold rolling and annealing and tempering rolling.

Than cold rolled steel manufacturing process is simple, the cost is cheap, but the experience of abroad think hot rolling method is only applicable to manufacture more than 1.6 mm thick steel plate, the more thin plates is not economic, hot rolled steel plate surface quality and dimension precision are worse than cold rolled steel, hot rolled steel plate, car in addition to the frame longitudinal beam, beam and a variety of stents, Also stamping requirements of a certain strength of the wheel rim, wheel, etc., and the force is not too high, surface requirements are not too high shell cover. The former is a thick 3-5 mm steel plate, the latter plate, sheet are used, the use of hot rolled plate on the car, with thick plate in the majority. According to the standard for hot SLSN plates for automobiles formulated by the Japan Automobile Association, SAPH is used for beams and wheels, while SPH is hot rolled soft steel plates for non-stressed shells.

Recently, continuous cast steel slabs are more and more applied to hot rolled steel plates in foreign countries, and the surface quality of steel plates has been improved and stabilized. Coils of hot rolled steel are also commonly used.

Product Properties

Product Name	Carbon Steel Plate
Standard	DIN GB JIS BA AISI ASTM EN etc

Grade	Q235A,Q235B,Q235C,Q235D,Q345B,Q345C,Q345D,Q345E, Q390B,Q390C,Q390D,Q390E,Q420B, Q420C,Q420D,Q420E,Q460B,Q460C,Q460D,Q460E, 20CR 40CR 20# 45# 50# 20MN,35MN,45MN, 40MN,50MN,60SI2MN,65MN,15CRMO,20CRMO,35CRMO,42CRMO,1 2CR1MOV, 27SIMN,16MNDR,16MNR,15MNVN,etc. S235JR,S235JO,S235J2,S275JO,S275JR,S275J2,S355JR, S355JO,S355J2,ST37,ST37-2,ST52-3,S20C, S45C,S35C,CK22,CK45,C20,C45,1020,1045,SM45,AH36,DH36, EH36,A3,A36,A516GR50 A516GR60,A516GR65/70,A572GR50/60/65/70,A588GR.A/B/C/D/E/F, SS400,A570GRA/B/C/D, A283,A572GR42/45/50/60/65,S235JRG1,UST37-2, Q235NH,Q295NH,Q355NH,Q460NH.HR235, HR355 etc.
Surface	Clean, blasting and painting according to customer requirement
Technique	Hot rolled or cold rolled
Thickness	3mm-300mm or as required
Width	0.6m-3m or as required
Length	4m-12m or as required
Weighting	On actual weight basis
Application	It is widely used in engineering machinery, metallurgical machinery, coal industry, mining machinery,environmental protection machinery,the feeder,container,dumper bodies, sieve plate,hoister,edge plate,wheel gear,cutter etc other industry.

Company Profile

Shandong Hailian Steel Group has deeply engaged in Chinese domestic market for over 10 years. We established perfect reputation and deep co-operations with large number of reliable partners. Our high-tech factory and well-trained workers are able to manufacture best quality and highly customized metal products. The professional sales team guarantees the perfect trading experience with Hailian.

The goal of Hailian is doing our best to offer our clients best service and product quality with lowest price. We are looking forward to deal business with you!

On the products' side, certificates as Mill Test Certificate(MTC), Third Party Material Quality Conformity Certificate and other required certificates are available before the order. Samples are also available from us for you to test in your own testing facility. Hailian Steel also supports third-party inspection before shipping. Hailian Steel also welcomes a company tour for you to check our factory status.

FAQ

1.What is your payment terms?

Our company prefers 30%TT before inspection and the rest 70% against BL. However, our price term is negotiable. Multiple payment terms are available from us.

2.Is customization available?

Our factory's expert equipment and highly-trained workers are capable of manufacturing highly customized products. Please feel free to discuss with us about your customized requirements, we can surely meet your needs.

3.Is sample providing service available?

Our company provides free samples to our clients. We usually also cover the sample shipping cost. Please feel free to order a sample from us.
