

Q355B JIS A36 Carbon Hot Rolled Mild Steel Plate 20mm Thick 1219*2438mm Black

Our Product Introduction

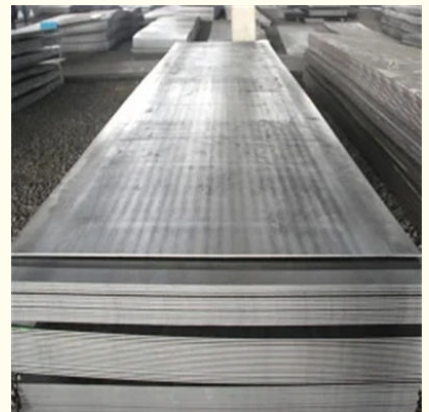

Basic Information

- Place of Origin: Jiangsu
- Brand Name: Hailian
- Model Number: Q235
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

Product Specification

- Name: Q235 Carbon Steel Plate
- Grade: Q235
- Length: 6000mm
- Type: Sheet/Plate
- Thickness: 20mm
- Width: 1219mm
- Color: Black
- Application: Construction Use
- Standard: JIS
- Technique: Hot - Rolled
- Highlight: **Q355B Hot Rolled Mild Steel Plate,
JIS Hot Rolled Mild Steel Plate,
A36 Carbon Steel Plate**

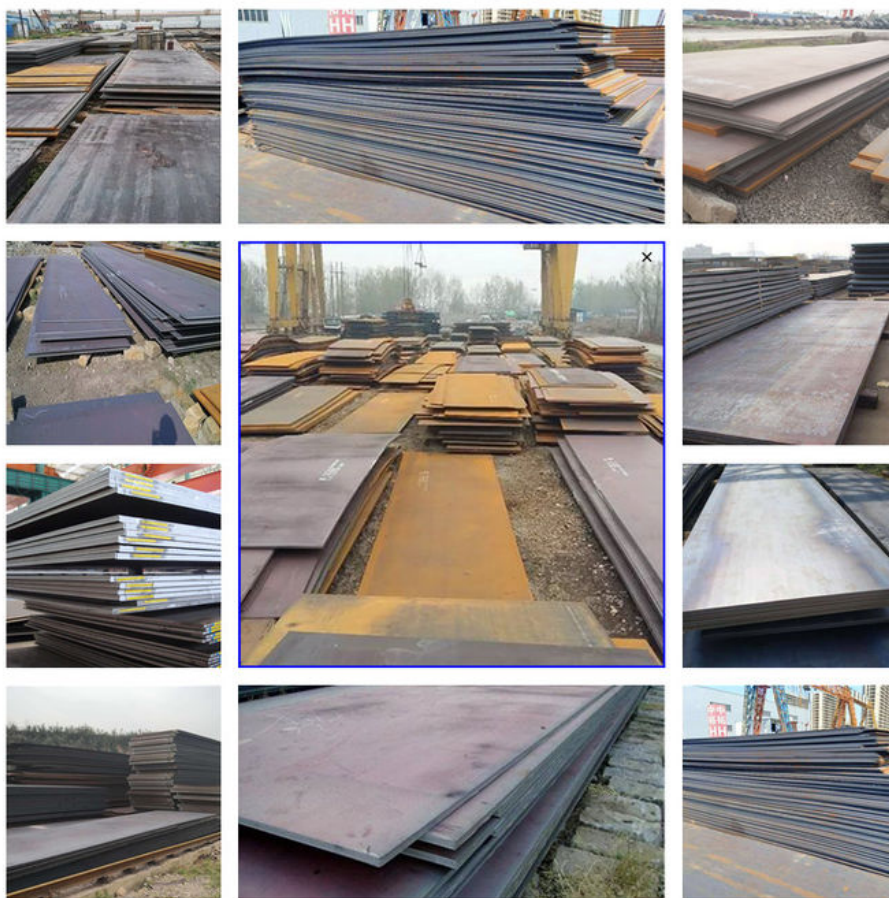

Product Description

Q355b JIS Carbon Steel Plate 20mm Thickness 1219 * 2438 mm Size Black Color Construction Use Hot - Rolled

Product Description

The morphology of the non-metallic inclusions of the hot rolled steel plate is elongated ribbon, and the combination with other metals is not good, so compared with the anisotropy that can be observed by the shape and size of the grain, the steel plate has greater potential anisotropy, resulting in poor ductility perpendicular to the rolling direction. The internal anisotropy of cold rolled steel plate can be alleviated by annealing. Another big difference between the two plates is the different surface state. Due to the combination of cold rolling and tempering rolling, the surface of cold rolled steel plate is processed delicately in the form of matte finish rolling (pear skin surface processing) and bright finish rolling. The surface of the hot rolled steel plate used in ordinary processing is the state of pickling the oxide skin generated during hot rolling, so it is very rough and does not have the uniform state of cold rolled steel plate. In addition, internal defects in materials and surface defects in manufacturing sometimes appear in the form of surface wrinkles. The EFFECT of the surface CHARACTERISTICS OF THE STEEL PLATE on SPINNING IS not clear, but some cases have been reported THAT surface CRACKS caused by transport have resulted in workpiece fracture during deep drawing spinning. In comparison between steel plates, hot rolled steel plates are generally slightly harder and have lower elongation than cold rail steel plates. In cold rolled steel plate, the higher the steel is, the softer the steel is, the lower the yield point, the larger the n value and r value, and the larger the total elongation. In addition to the above plastic deformation properties, the elastic properties of steel plate is two times the elastic modulus of aluminum plate. In this way, it is beneficial to reduce the spinning formed projectile, and increase the rigidity of the workpiece accordingly. This advantage is compelling.

Product Properties

| | |
|--------------|--|
| Product Name | Carbon Steel Plate |
| Standard | DIN GB JIS BA AISI ASTM EN etc |
| Grade | Q235A,Q235B,Q235C,Q235D,Q345B,Q345C,Q345D,Q345E,Q390B,Q390C,Q390D,Q390E,Q420B,Q420C,Q420D,Q420E,Q460B,Q460C,Q460D,Q460E,20CR 40CR 20# 45# 50# 20MN,35MN,45MN,40MN,50MN,60SI2MN,65MN,15CRMO,20CRMO,35CRMO,42CRMO,12CR1MOV,27SIMN,16MNDR,16MNR,15MNV,etc.S235JR,S235JO,S235J2,S275JO,S275JR,S275J2,S355JR,S355JO,S355J2,ST37,ST37-2,ST52-3,S20C,S45C,S35C,CK22,CK45,C20,C45,1020,1045,SM45,AH36,DH36,EH36,A3,A36,A516GR50A516GR60,A516GR65/70,A572GR50/60/65/70,A588GR.A/B/C/D/E/F,SS400,A570GRA/B/C/D,A283,A572GR42/45/50/60/65,S235JRG1,UST37-2,Q235NH,Q295NH,Q355NH,Q460NH.HR235,HR355 etc. |
| Surface | Clean, blasting and painting according to customer requirement |
| Technique | Hot rolled or cold rolled |

| | |
|-------------|--|
| Thickness | 3mm-300mm or as required |
| Width | 0.6m-3m or as required |
| Length | 4m-12m or as required |
| Weighting | On actual weight basis |
| Application | It is widely used in engineering machinery, metallurgical machinery, coal industry, mining machinery, environmental protection machinery, the feeder, container, dumper bodies, sieve plate, hoister, edge plate, wheel gear, cutter etc other industry. |

Company Profile

Shandong Hailian Steel Group has deeply engaged in Chinese domestic market for over 10 years. We established perfect reputation and deep co-operations with large number of reliable partners. Our high-tech factory and well-trained workers are able to manufacture best quality and highly customized metal products. The professional sales team guarantees the perfect trading experience with Hailian.

The goal of Hailian is doing our best to offer our clients best service and product quality with lowest price. We are looking forward to deal business with you!

On the products' side, certificates as Mill Test Certificate(MTC), Third Party Material Quality Conformity Certificate and other required certificates are available before the order. Samples are also available from us for you to test in your own testing facility. Hailian Steel also supports third-party inspection before shipping. Hailian Steel also welcomes a company tour for you to check our factory status.

FAQ

1.What is your payment terms?

Our company prefers 30%TT before inspection and the rest 70% against BL. However, our price term is negotiable. Multiple payment terms are available from us.

2.Is customization available?

Our factory's expert equipment and highly-trained workers are capable of manufacturing highly customized products. Please feel free to discuss with us about your customized requirements, we can surely meet your needs.

3.What products and materials do you supply?

Our company mainly supplies all catalogs and all grades of steel and stainless steel products. Coils, strips, sheet, pipes, bars, beams, flanges and other customized products. Tin coating, Ti coating, galvanization and other surface treatments are also available.

Other than steel products, we also have high production capacity and hold large ready stock of all kinds of copper and aluminum products. Please feel free to consult us about any related products above, we can surely meet your requirements.
