

## C5210 Copper Coil Tubing 12mm OD ASTM Standard 1.5mm Thick

### Our Product Introduction

#### Basic Information

- Place of Origin: Jiangsu
- Brand Name: Hailian
- Model Number: C5210
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

#### Product Specification

- Name: H5210 Copper Pipe
- Grade: H5210
- OD: 12mm
- Type: Pipes
- Thickness: 1.5mm
- Material: Copper
- Color: Green
- Application: Construction Use
- Standard: ASTM
- Surface: Bright
- Highlight: C5210 Copper Coil Tubing,  
Copper Coil Tubing 12mm

## Product Description

C5210 Copper Pipe ASTM Standard 12mm OD 1.5mm Thickness Green Color Construction Use

### Product Description

Copper pipe is a major staple in the plumbing industry. It is thus one of the most sought after forms of piping available. Perfect for waste transportation and overall plumbing pipe systems, copper pipes provide flexible applications and are a relatively low cost option (when compared to many alternatives). Copper pipe is a major staple in the plumbing industry. It is thus one of the most sought after forms of piping available. Perfect for waste transportation and overall plumbing pipe systems, copper pipes provide flexible applications and are a relatively low cost option (when compared to many alternatives). But, with that said, they are still oftentimes prohibitively expensive, which can increase construction and repair costs. Nowadays, it seems like many consumers are going in a different direction when it comes to choosing their plumbing solutions. There are a host of advantages to using copper pipe that will weigh on your decision. These include:

**Flexible:** Copper piping is quite soft compared to most metals. This means you can bend it relatively easily, allowing a reduced reliance on fasteners and connectors. This also helps make installation a lot simpler than other piping materials.

**Temperature resistant:** Copper pipes can also resist extreme cold, heat, as well as sudden changes of temperature. This effect can be doubled by the use of insulation.

**Bacteriostatic:** This type of piping also resists the growth of bacteria, a problem that other pipes may run into at one point or another. Because it is bacteriostatic, bacteria actually cannot grow on copper piping, making it perfect for the transportation of fresh or potable water.

### Product Properties

Item	split air conditioner copper pipe
Material	red copper pipe: c10200, c10400, c10500, 10700, c11000, c12000, c12200, c12300
Standard	ASTM B280, JIS H3300, CNS 5127, EN 1057, YS/T450-2002
Size	Out Diameter: 3mm-400mm
	Wall Thickness: 0.1mm-50mm
	Hot Sale to USA, UAE, Europe, Asia.
Property	Light Weight, Good Thermal Conductivity, Low Temperature and High Strength Hardness and Corrosion Resistance, High Temperature and Pressure Resistance. It can be easy to joint and to change the shape.
Application	Seawater desalination device Oil Cooler/Condenser Fuel Burning and Nuclear Power Plant use in condenser and Shipping used in Condenser and Heated supply water distilling apparatus and heat exchange Water pipe, Supply Heat and Condenser pipe

### Company Profile

Shandong Hailian Steel Group has deeply engaged in Chinese domestic market for over 10 years. We established perfect reputation and deep co-operations with large number of reliable partners. Our high-tech factory and well-trained workers are able to manufacture best quality and highly customized metal products. The professional sales team guarantees the perfect trading experience with Hailian.

The goal of Hailian is doing our best to offer our clients best service and product quality with lowest price. We are looking forward to deal business with you!

## FAQ

1. What is your payment terms?

Our company prefers 30% TT before inspection and the rest 70% against BL. However, our price term is negotiable. Multiple payment terms are available from us.

2. Which payment method can I choose?

Our company accepts all types of secured payment methods. Bank transaction, Trading Assurance, Paypal and etc are all available from us. Please feel free to contact us about your preferred payment method.

3. Why should I choose you?

Our company has deeply engaged in metal material market for over 15 years. We established perfect reputation world-widely. Craftsmanship spirit is the fundamental of Xuda Steel since we are established. Xuda Steel keeps our products as highest quality and lowest price to maintain our self competitive. Proving our clients with best trading experience is the goal we always insist of.
