

T2 Copper Pipe Tube 51mm OD 2.5mm Thick Soft Copper Tubing

Our Product Introduction

Basic Information

- Place of Origin: Jiangsu
- Brand Name: Hailian
- Model Number: T2
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

Product Specification

- Name: T2 Copper Pipe
- Grade: T2
- OD: 51mm
- Type: Pipes
- Thickness: 2.5mm
- Material: Copper
- Color: Purple
- Application: Decoration Use
- Standard: ASTM
- Surface: Bright
- Highlight: T2 Copper Pipe Tube, Copper Pipe Tube 51mm, 2.5mm Soft Copper Tubing

Product Description

T2 Copper Pipe ASTM Standard 51mm OD 2.5mm Thickness Purple Color Decoration Use

Product Description

Copper pipe is also known as red copper pipe. A non-ferrous metal pipe, is pressed and drawn seamless pipe. Copper pipe has the characteristics of good electrical conductivity, thermal conductivity, electrical accessories and heat dissipation accessories of the main material, and become the modern contractor in all residential commercial housing water pipe, heating, cooling pipe installation of the first choice. Copper pipe corrosion resistance is strong, not easy to oxidation, and some liquid substances are not easy to react with chemical, easy to bend shape.

Copper tube light weight, good thermal conductivity, high strength at low temperature. It is often used to manufacture heat exchange equipment (such as condensers). It is also used to assemble cryogenic pipes in oxygen production equipment.

Copper pipe with small diameter is often used for conveying liquid under pressure (such as lubrication system, hydraulic system, etc.) and pressure measuring pipe used as instrument, etc.

Copper pipe is the first choice for modern contractors to install water pipes, heating and cooling pipes in all residential and commercial buildings.

1, because the copper pipe is easy to process and connect, so that the installation, can save the material and total cost, with good stability and reliability, can save maintenance.

2, copper is light. Copper pipe does not require the thickness of ferrous metal for twisted pipe of the same inner diameter. When installed, copper piping costs less to deliver, is easier to maintain, and takes up less space.

3. Copper can change its shape. Because copper pipe can bend and deform, it can often be made into elbows and joints. Smooth bending allows copper pipe to bend at any Angle.

4. Copper is easy to connect.

5. Copper is safe. No leakage, no combustion, no toxic gas, corrosion resistance.

Product Properties

Product Name	Copper Pipe
Material	T1,T2,C10100,C10200,C10300,C10400,C10500,C10700,C10800,C10910,C10920,TP1,TP2,C10930,C11000,C11300,C11400,C11500,C11600,C12000,C12200,C12300,TU1,TU2,C12500,C14200,C14420,C14500,C14510,C14520,C14530,C17200,C19200,C21000,C23000,C26000,C27000,C27400,C28000,C33000,C33200,C37000,C44300,C44400,C44500,C60800,C63020,C65500,C68700,C70400,C70600,C70620,C71000,C71500,C71520,C71640,C72200,C83600/C93200,C62900/C95400/C95500/CuAl10Fe5Ni5,H59,H62,H65,H70

Standard	GB/T17791-2007,GB/T1527-2006, GB/T18033-2007, YS/T450-2002ASTM B280,ASTM B68,ASTM B75,ASTM B88 EN12735,AS1571,JIS H3300
Shape	Round,Square,Rectangular,Oval,Half-Round
Temper	Soft (M), half soft (M2) and half hard (Y2)
Application	Water tube, Air condition or Refrigerator, Water heater Water and Heater Tube,Condenser,Industry Electric appliance,Machinery and etc

Company Profile

Shandong Hailian Steel Group has deeply engaged in Chinese domestic market for over 10 years. We established perfect reputation and deep co-operations with large number of reliable partners. Our high-tech factory and well-trained workers are able to manufacture best quality and highly customized metal products. The professional sales team guarantees the perfect trading experience with Hailian.

The goal of Hailian is doing our best to offer our clients best service and product quality with lowest price. We are looking forward to deal business with you!

FAQ

1.What is your payment terms?

Our company prefers 30%TT before inspection and the rest 70% against BL. However, our price term is negotiable. Multiple payment terms are available from us.

2.Which payment method can I choose?

Our company accepts all types of secured payment methods. Bank transaction, Trading Assurance, Paypal and etc are all available from us. Please feel free to contact us about your preferred payment method.

3.Is sample providing service available?

Our company provides free samples to our clients. We usually also cover the sample shipping cost. Please feel free to order a sample from us.
