Product Description

316L Stainless Steel Angle Bar Medical Equipment Din Standard 6m Length 40mm Leg Length 4mm Thickness

Product Description

316 stainless steel is a popular choice for applications that require a non-magnetic material. However, there is some debate over whether or not 316 stainless steel is actually non-magnetic. The reason for this confusion is the austenitic microstructure of 316 stainless steel. Austenite is a magnetic phase, but the majority of the material is usually in a non-magnetic state.
