

SS304 Stainless Steel Sheet Plate AISI Hot Rolled 40mm 1500*6000 For Decoration

Our Product Introduction

Basic Information

- Place of Origin: Jiangsu
- Brand Name: Hailian
- Model Number: 304
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

Product Specification

- Name: SS304 Stainless Steel Plate
- Grade: 304
- Thickness: 40mm
- Type: Sheet
- Surface: No.1
- Size: 1500*6000mm
- Color: Natural Color
- Application: Construction Use
- Standard: AISI
- Technique: Hot Rolled
- Highlight: **AISI Hot Rolled Stainless Steel Plate,
40mm Stainless Steel Sheet Plate,
Stainless Steel Sheet Plate 1500*6000**

Product Description

No.1 SS304 Stainless Steel Sheet Plate AISI Hot Rolled 40mm Thickness 1500*6000 For Decoration

Product Description

Hot rolled stainless steel plates have three features. First, the hardness of hot rolled stainless steel plates is relatively low, easy to work, and the board is extremely malleable. Secondly, the strength of hot rolled stainless steel plate is relatively low, the surface quality of the plate is slightly poor. For example, there are problems with oxidation and low finish. However, the plate has good plasticity and can be made into medium thick plate. The cold-rolled sheet after processing has the advantages of high strength, high hardness and surface finish. If processed into stainless steel plate, can be made into punching plate.

The third point is that the mechanical property of hot-rolled stainless steel plates is much lower than that of cold working and forging, but the toughness and ductility of such plates are relatively good.

Hot rolled stainless steel plates have a variety of functions. The first common use is that it can be made into structural steel, which can be processed into regular structural steel and welded structural steel, mainly for the production of steel structural components, Bridges, ships and vehicles.

Second, it can be made into weathering steel. By adding special elements (such as phosphorus, copper, carbon, etc.), hot rolled stainless steel plates will have excellent corrosion resistance and atmospheric corrosion resistance, and can be used in the manufacture of containers, special vehicles, and also in building structures.

The third kind is used for automobile structural steel, because the hot rolled stainless steel plate can be processed into high strength steel plate with excellent welding performance, which can be used to manufacture automobile steel plate.

The fourth function is to manufacture hot rolled special steel. General mechanical structure using carbon steel, alloy steel and other materials, for heat treatment engineering after the production of various mechanical parts.

Hot rolled stainless steel plates are also the raw material for cold rolled raw plates, which are used to manufacture a variety of cold rolled products, including CR, GI and color coated plates.

In addition, this material can also be made into steel plates for high pressure vessels, because of its good processing properties and compressive strength, suitable for the production of high pressure gas pressure vessels filled with liquefied petroleum gas, acetylene and a variety of gas content volume less than 500.

Product Properties

| | |
|---------------------|--|
| Product Name | stainless steel plate/sheet |
| Length | 2000mm, 2438mm, 2500mm, 3000mm, 6000mm or as required |
| Width | 1000mm, 1219mm, 1240mm, 1500mm, 1800mm, 2000mm or as required |
| Thickness | 0.3-4mm cold rolled; 3-16mm hot rolled; 16-100mm hot rolled; Customized according to customer requirements |
| Standard | AISI,ASTM,DIN,JIS,GB,JIS,SUS,EN,etc |
| Technique | Hot rolled / cold rolled |
| Surface Treatment | 2B ,2D, BA,No.1 ,No.3 ,No.4, No.5 ,No.8 ,8K,HL.etc. |
| Thickness Tolerance | ±0.01mm |
| Material | 201,202,301,302,302HQ,303,304,304L,304F,309,310,310s,314,314L,316,316L,316Ti,316F,317,317L,321,409L,410,410S,416,420,420J1,420JS430,430F,431,2205,2507 etc. |
| Application | It is widely used in high temperature applications, medical devices, building materials, chemistry, food industry,agriculture,ship components. It also applies to food, beverage packaging, kitchen supplies, trains, aircraft, conveyor belts, vehicles, bolts, nuts,springs,and screen. |
| MOQ | 1 ton , We can accept sample order. |
| Shipment Time | Within 7-15 workdays after receiving deposit |
| Export Packing | Waterproof paper, and steel strip packed. Standard Export Seaworthy Package.Suit for all kinds of transport,or as required |
| Capacity | 25000 tons/month |

Company Profile

Conformity Certificate and other required certificates are available before the order. Samples are also available from us for you to test in your own testing facility. Hailian Steel also supports third-party inspection before shipping. Hailian Steel also welcomes a company tour for you to check our factory status. Shandong Hailian Steel Group has deeply engaged in Chinese domestic market for over 10 years. We established perfect reputation and deep co-operations with large number of reliable partners. Our high-tech factory and well-trained workers are able to manufacture best quality and highly customized metal products. The professional sales team guarantees the perfect trading experience with Hailian. Our company is willing to provide our copies of company registration certificate and Chinese exporting registration for you to view. These certificates are under Chinese Trading Law effect. They can help you officially check our company's capability and status. On the products' side, certificates as Mill Test Certificate(MTC), Third Party Material Quality Conformity Certificate and other required certificates are available before the order. Samples are also available from us for you to test in your own testing facility. Hailian Steel also supports third-party inspection before shipping. Hailian Steel also welcomes a company tour for you to check our factory status.

FAQ

1.What is your payment terms?

Our company prefers 30%TT before inspection and the rest 70% against BL. However, our price term is negotiable. Multiple payment terms are available from us.

2.What products and materials do you supply?

Our company mainly supplies all catalogs and all grades of steel and stainless steel products. Coils, strips, sheet, pipes, bars, beams, flanges and other customized products. Tin coating, Ti coating, galvanization and other surface treatments are also available. Other than steel products, we also have high production capacity and hold large ready stock of all kinds of copper and aluminum products. Please feel free to consult us about any related products above, we can surely meet your requirements.

3.Is sample providing service available?

Our company provides free samples to our clients. We usually also cover the sample shipping cost. Please feel free to order a sample from us.
