## Product Description

304 Stainless Steel Embossed Coil Customized Patterns 4 Feet Width 0.4mm Thickness Cold-Rolled Antiskid

### Product Description

Embossed stainless steel sheet is a very popular material for architectural and decorative designs, as it has a unique and attractive design in a form of concave-convex patterns and textures, which are embossed by the stamping process. The stunning products with a 3-Dimensional effect are transformed from a flat and plain stainless steel sheet, so it's a durable and longer-lasting product. The styles and designs of the embossed patterns can be endlessly achieved according to your creative ideas and imagination, so they can also be used in the creation of artworks, furniture, elevator interiors, kitchen backsplashes, etc. In a wide range of applications, embossed metal sheets generally present their original metallic colors and dimensional patterns to improve the residential and commercial spaces with some aesthetic elements.
