1220mm Carbon MS HR Coils**

Product Description

MS Coil Q235B HR Coils Hot-Rolled ASME Standard 1220mm Width 12mm Thickness Low Carbon Coil

Product Description

Q235 has good plasticity and welding properties, and good forming ability.

Moderate carbon content, good overall performance. Its plasticity and toughness are good, and its welding performance is excellent.

During welding, special process measures such as preheating and post-welding heat treatment are generally not required And has a certain strength, suitable for use in construction and engineering structures.

It has good practical performance, relatively cheap price, and high-cost performance.
