

DX52D Galvanized GI Coil Sheets 0.3-3.0mm Thickness Length

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

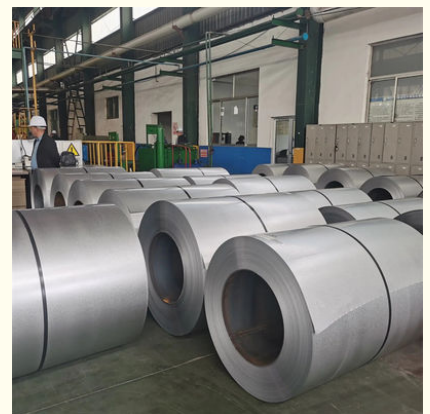

Basic Information

- Place of Origin: Shandong
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3 - 5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

Product Specification

- Elongation: 16-30%
- Coil Weight: 3-8 Tons
- Thickness: 0.3-3.0mm
- Length: According To Customer's Requirement
- Tensile Strength: 270-500n/mm²
- Surface Treatment: Galvanized
- Edge Quality: No Burrs
- Yield Strength: 175-400n/mm²
- Highlight: Galvanized GI Coil Sheets,
DX52D GI Coil Sheets,
Galvanized Coil Sheets 3.0mm

Product Description

Product Description:

Galvanized Steel Coil is a kind of DX53D GI Coil, made of high-grade galvanized steel. It has a thickness of 0.3-3.0mm, a width of 1000-1500mm, and a maximum zinc coating of 275g/m². It has a bright and smooth surface, which is characterized by excellent corrosion resistance and durability, making it perfect for a variety of industrial applications. As a renowned Zinc Steel Coil Sheets Supplier, we guarantee the superior quality and performance of our Galvanized Steel Coil.

Applications:

Galvanized steel coil with DX52D GI Coil Sheets and DX51D Galvanized Steel Coil, is a kind of steel plate with high strength and durability. It has a bright and smooth surface, and it is packaged in a standard export package. It is produced in Wuxi, which is a famous city in China. The yield strength of this galvanized steel coil is between 175-400n/mm², and the thickness is between 0.3-3.0mm. The elongation is also between 16-30%. This galvanized steel coil is widely used in various industries due to its excellent performance and strong durability.

Customization:

DX51D Galvanized Steel Coil, GI Coil, GI Coil Price

Our Galvanized Steel Coil is made of high-quality steel and is manufactured using advanced technology. It is characterized by excellent strength, durability, and precision. The coil is made with the following features:

Place of Origin: Wuxi

Coil Weight: 3-8 Tons

Tensile Strength: 270-500n/mm²

Surface Quality: Bright and smooth surface

Package: Standard export package

Thickness: 0.3-3.0mm

Our Galvanized Steel Coil is perfect for various industrial applications and is offered at competitive prices. Contact us today for more information!

Support and Services:

Our company provides professional technical support and service for Galvanized Steel Coil. We have experienced engineers and technicians to provide customers with engineering design, technical consultation and problem solving services. Our professional service team is committed to providing customers with comprehensive solutions and the best customer service experience. We can also provide customers with on-site installation and commissioning services. In addition, we also provide professional training and after-sales service, to ensure that customers can use the product correctly and efficiently.

Packing and Shipping:

Packaging and Shipping

Galvanized Steel Coil is typically packaged in bundles and shipped in wooden cases, wooden pallets or according to customer's specific requirements.

FAQ:

Q & A about Galvanized Steel Coil

Q: Where is the place of origin of Galvanized Steel Coil?

A: The place of origin of Galvanized Steel Coil is Shandong.

Q: What is the brand name of Galvanized Steel Coil?

A: The brand name of Galvanized Steel Coil is Hailian.

Q: What is the material of Galvanized Steel Coil?

A: Galvanized Steel Coil is made of high-quality carbon structural steel.

Q: What is the surface treatment of Galvanized Steel Coil?

A: The surface of Galvanized Steel Coil is galvanized.

Q: What is the application of Galvanized Steel Coil?

A: Galvanized Steel Coil is suitable for making construction material, auto parts, home appliance, decoration, etc.
