

270 - 500n/Mm2 Galvanized No Burrs Steel Coil 1500mm Standard Export Package

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 3-5 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 ton per month

Product Specification

- Width: 1000-1500mm
- Material: Galvanized Steel
- Elongation: 16-30%
- Thickness: 0.3-3.0mm
- Coil Weight: 3-8 Tons
- Zinc Coating: 30-275g/m2
- Surface Treatment: Galvanized
- Edge Quality: No Burrs
- Highlight: 500n/mm2 Galvanized Steel Coil,
Galvanized No Burrs Steel Coil,
1500mm Galvanized Coil

Product Description

Product Description:

Galvanized Steel Coil is made of zinc-coated steel sheets, which is a kind of GI Coil Sheets. The steel sheet is coated with zinc to form a protective layer, which is not only rust-resistant but also has longer service life. With Tensile Strength of 270-500n / mm², Galvanized Steel Coil has Coil ID of 508/610mm and Length of According To Customer's Requirement. Its Edge Quality is No Burrs and Surface Quality is Bright And Smooth Surface. Galvanized Steel Coil Sheets, also known as GI Coil, is widely used in many industries such as construction, automotive, shipbuilding, oil and gas, and more.

Applications:

Galvanized Steel Coil from Wuxi is a great choice for many industries and applications due to its high tensile strength (270-500n/mm²) and durable surface quality (bright and smooth surface). The Galvanized Steel Coil can be customized in terms of length, thickness (0.3-3.0mm) and width (1000-1500mm). DX52D GI Coil Sheets from Wuxi are perfect for a wide range of uses, including industrial machinery, hardware, automotive, and construction. Galvanized Steel Coil from Wuxi is highly reliable and cost-effective, making it an ideal choice for any project.

Customization:

Customized Galvanized Steel Coil

Material: Galvanized Steel

Place of Origin: Wuxi

Length: According to Customer's Requirement

Package: Standard Export Package

Coil ID: 508/610mm

Coil Weight: 3-8 Tons

Keywords: Galvanized Steel Coil, GI Coil, DX53D GI Coil

Support and Services:

Technical Support and Service for Galvanized Steel Coil

We provide professional technical support and service for our customers who purchase Galvanized Steel Coil. Our technical team are able to provide support on the following areas:

Help with product selection

Advise on product suitability

Product installation instructions

Product maintenance instructions

Product troubleshooting guidelines

Product safety advice

We will continually strive to provide the highest levels of technical support and service for Galvanized Steel Coil and all of our other products.

Packing and Shipping:

Packaging and Shipping of Galvanized Steel Coil:

The galvanized steel coil is usually packed in a standard package with a bundle of straps, steel strip and a plastic wrap. The package size and weight depend on the characteristics of the product. It is then shipped by air, land or sea and is usually delivered to the customer in about two weeks.

FAQ:

Q1: What is Galvanized Steel Coil?

A1: Galvanized Steel Coil is a type of steel product with a zinc coating applied to the surface to help protect against corrosion. It is manufactured in Shandong, China, with a thickness range of 0.12-2.0mm and a width range of 600-1250mm.

Q2: How is Galvanized Steel Coil made?

A2: Galvanized Steel Coil is made by cold rolling steel through a special galvanizing process in which a thin layer of zinc is applied to the surface of the steel.

Q3: What are the advantages of Galvanized Steel Coil?

A3: Galvanized Steel Coil has excellent corrosion resistance, good formability, and low cost. It is also resistant to fire, heat, and humidity, making it a great choice for outdoor applications.

Q4: What is the application of Galvanized Steel Coil?

A4: Galvanized Steel Coil is widely used in the construction industry, for making roofing sheets, wall cladding, and other building components. It is also used in automotive, shipbuilding, and agricultural industries.

Q5: Where is Galvanized Steel Coil manufactured?

A5: Galvanized Steel Coil is manufactured in Wuxi, China.
