

Slit Edge Mild Steel Coil 20% Elongation 400 - 550 N/Mm2

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: Available
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

Product Specification

- Material: Mild Steel
- Elongation: 20%
- Surface Treatment: Coated
- Tensile Strength: 400-550 N/mm2
- Coil Weight: 4-25 MT
- Surface Finish: Bright, Matte
- Yield Strength: 240 N/mm2 (MPa)
- Edge: Mill Edge, Slit Edge
- Highlight: **Mild Slit Edge Steel Coil,
20% Elongation Mild Steel Coil,
400 N/mm2 Mild Coil**

Product Description

Product Description:

Mild Steel Coil is a kind of steel coil made of mild steel. It offers a good combination of strength, formability and weldability. The coil weight of Mild Steel Coil ranges from 4 to 25 metric tons. Its elongation reaches up to 20%, with thickness of 0.2 to 3 millimeters. The inner diameter of the Mild Steel Coil is 1219/1220/1500 millimeters, while the width is 1000 to 2000 millimeters.

Mild Steel Coil is widely used in many industries due to its excellent properties, such as low cost, high strength, good formability, weldability, and corrosion resistance. It is also widely used in construction, manufacturing, and other applications.

Mild Steel Coil is an ideal choice for various applications, including building construction, automobile manufacturing, shipbuilding, and other metal fabrication projects. With its excellent properties, this kind of steel coil can be easily formed, cut, and drilled into desired shapes.

Mild Steel Coil is an excellent choice for many applications due to its superior properties, such as excellent strength, formability, weldability, corrosion resistance, and cost-effectiveness. It is a perfect choice for various industries, including construction, automobile manufacturing, and shipbuilding.

Applications:

Mild Steel Coil is widely used in a variety of applications due to its excellent properties. It has high tensile strength of 400-550 N/mm², and is available in thicknesses ranging from 0.2 to 3 mm. The coils are available in widths of 1000-2000 mm, with 1219mm, 1220mm, and 1500mm being the most common. Mild Steel Coil is made of 20# steel and is available in a variety of sizes to meet different needs.

Mild Steel Coil is produced in Shandong, China, and is available with certificates of origin for customers seeking assurance of its quality.

The minimum order quantity is 1 ton, and the price is 500-550 USD. The product is typically packaged in standard packing for delivery within 3-5 days, and payment is usually made with 30% T/T and 70% before shipping. Supply ability is up to 50000 ton/month.

Mild Steel Coil is a popular choice for a variety of applications due to its high tensile strength and low cost. It is a versatile product that can be used for anything from automotive and engineering projects to construction and agricultural uses. With its wide range of sizes and excellent properties, Mild Steel Coil is a great option for any project.

Customization:

We provide custom made Mild Steel Coil for customers in different shapes, sizes and specifications. Our Mild Steel Coil is manufactured from premium grade materials, as per international quality standards. The Carbon Steel Coils are available in various thickness such as 1220mm, 1219mm and 1500mm width.

Place of Origin: Shandong

Certification: Available

Minimum Order Quantity: 1 ton

Price: 500 - 550 USD

Packaging Details: Standard packing

Delivery Time: 3 - 5 days

Payment Terms: 30% T/T 70% before shipping

Supply Ability: 50000 ton/month

Hardness: Soft, Hard, Half Hard, Quarter Hard, Spring Hard Etc.

Edge: Mill Edge, Slit Edge

Length: 1000-6000 Mm

Elongation: 20%

Form: Coils, Sheets

Support and Services:

Technical Support and Service for Mild Steel Coil

We provide technical support and service for mild steel coil. Our team of experts are on hand to answer any questions you have regarding our products, including detailed information on product specifications, installation, and maintenance.

We offer technical assistance for any issues that arise during the use of our products. If you need help troubleshooting, our team is available to provide support and advice. We can also provide instructions on installation and maintenance to ensure your products are operating properly.

We strive to provide excellent customer service and ensure that all of our customers are satisfied with their purchase. If you have any questions or concerns regarding our mild steel coil, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping

Mild Steel Coils are packaged in wooden boxes, wooden pallets, and steel frames to ensure their safety during transport. The packaging materials used are of industrial-grade quality and are designed to withstand varying temperatures and weather conditions.

The coils are shipped using standard shipping containers to ensure their safe arrival at the destination. Special care is taken to secure the coils and ensure they reach their destination in the best condition possible.

FAQ:

Q1: What is Mild Steel Coil?

A1: Mild Steel Coil is a type of steel coil typically used in mild steel and low carbon steel. It is usually used for various purposes such as

structural building materials, automotive parts, household appliances, and more.

Q2: Where is the Place of Origin?

A2: The Place of Origin of Mild Steel Coil is Shandong, China.

Q3: What Certifications Are Available?

A3: Certifications are Available for Mild Steel Coil.

Q4: What is the Minimum Order Quantity?

A4: The Minimum Order Quantity for Mild Steel Coil is 1 ton.

Q5: What is the Price and Packaging Details?

A5: The Price for Mild Steel Coil is 495 - 545 USD per ton, and the Packaging Details are Standard packing. Delivery Time is 3 - 5 days, Payment Terms are 30% T/T 70% before shipping, and Supply Ability is 50000 ton/month.
