

Highly Durable Galvanized Steel DC51D Pipes 48mm For Etc. Applications

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

Product Specification

- Shape: Round Square Pipe
- Thickness: As Request
- Application: Construction, Machinery, Electronics, Light Industry, Etc.
- Standard: ASTM GB ASME JIS DIN EN
- Length: 6m Or As Request
- Surface Treatment: Galvanized
- Special Pipe: Available
- Material: Galvanized Steel
- Highlight: **Galvanized Steel DC51D Pipes, 48mm Galvanized Steel Pipes, Highly Durable Galvanized Pipes**

Product Description

Product Description:

Galvanized Steel Pipe is made from cold rolled steel strip which has been hot-dipped in a zinc coating of 80g 100g 120g Zinc Layer, providing a layer of protection from the elements and making the steel resistant to corrosion. It has a customized thickness and a round or square shape with size from 22mm to 720mm. The galvanized steel pipes tube is highly durable, and is designed to be used in many different industrial applications such as plumbing, construction, automotive, and other fields. Moreover, its galvanized coating makes it resistant to rust and corrosion, and provides a long lasting and highly reliable performance.

Applications:

Galvanized Steel Pipe is a type of steel pipe that is manufactured by dipping the steel pipe into a hot-dipped zinc coating process to prevent corrosion and rust. It has a Place of Origin from Shandong and is ISO SGS MTC certified. It is available in two thicknesses, 57mm-89mm and 22mm-48mm, and is able to withstand high temperatures and pressure. It is available in a variety of standard connections and is hot-dipped in zinc for corrosion resistance. It is made from galvanized steel and is Non-alloy. The minimum order quantity is 1 ton and the price ranges from 600-650 USD. The packaging details are standard packing and the delivery time is 3-5 days. The payment terms are 30% T/T 70% before shipping and the supply ability is 50000 ton/month.

Customization:

Customized Galvanized Steel Pipe

Place of Origin: Shandong

Certification: ISO SGS MTC

Minimum Order Quantity: 1 ton

Price: 585 - 650 USD

Packaging Details: Standard packing

Delivery Time: 3 - 5 days

Payment Terms: 30% T/T 70% before shipping

Supply Ability: 50000 ton/month

Size: 22mm - 720mm

Thickness: 22mm - 48mm thickness, 108 - 720mm thickness

Alloy Or Not: Non-alloy

Connection: Standard

Application: Construction, Machinery, Electronics, Light Industry, Etc.

Support and Services:

We provide technical support and services for Galvanized Steel Pipe products. Our services include installation, maintenance, repair, and replacement of Galvanized Steel Pipe products in accordance with industry standards. Our team of experienced technicians can provide on-site services and troubleshooting for any issues you may have with your Galvanized Steel Pipe products. We also offer remote support via phone, email, and video conferencing for more complex issues. Additionally, our team can provide training on proper installation, maintenance, and repair of Galvanized Steel Pipe products.

Packing and Shipping:

Galvanized Steel Pipe is usually packaged by wrapping with plastic film, then packed in bundles with steel strips, and then fastened with steel belt. The shipping method of Galvanized Steel Pipe is usually by sea, land, railway and air.

FAQ:

Questions & Answers:

Q1: What is galvanized steel pipe?

A1: Galvanized steel pipe is a steel pipe that has been coated with zinc. This coating protects the steel from corrosion.

Q2: Where is the galvanized steel pipe from?

A2: The galvanized steel pipe is from Shandong, China.

Q3: What kind of certification does the galvanized steel pipe have?

A3: The galvanized steel pipe has ISO, SGS and MTC certifications.

Q4: How much does the galvanized steel pipe cost?

A4: The galvanized steel pipe costs between 585-650 USD per ton.

Q5: How long does it take to deliver the galvanized steel pipe?

A5: The galvanized steel pipe will be delivered within 3-5 days after payment.
