

## 6m 12m Length Galvanized Steel Pipe As Request Thickness 22mm-720mm

### Our Product Introduction

For more products please visit us on [sheetstainless-steel.com](http://sheetstainless-steel.com)

#### Basic Information

- Place of Origin: Shandong
- Certification: ISO SGS MTC
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

#### Product Specification

- Technique: Hot-dipped
- Connection: Standard
- Length: 6m Or As Request
- Size: 22mm - 720mm
- Shape: Round Square Pipe
- Material: Galvanized Steel
- Application: Construction, Machinery, Electronics, Light Industry, Etc.
- Special Pipe: Available
- Highlight: **Hot-dipped Galvanized Pipe,  
12m Galvanized Steel Pipe**

## Product Description

### Product Description:

Galvanized Steel Pipe is a kind of metal pipe made of steel that has been galvanized with zinc. It features a strong, durable construction and a wide range of standard and special sizes. The standard connection is threaded and welded, while special connections can also be available upon request. The thickness of the pipes can be customized, ranging from 22mm to 720mm, and 6m to 12m in length. DC51D Galvanized Pipes are also available with a thickness ranging from 57mm to 89mm. Galvanized Steel Pipe features a non-alloy material that is perfect for a variety of applications, including water and gas supply, and auto parts.

### Applications:

Galvanized steel pipe is a kind of steel pipe with a zinc layer on its surface, which is a cost-effective and efficient way to protect steel pipes from corrosion and rust. It has a wide range of applications, ranging from furniture, buildings, ships, bridges, oil pipelines, oil tanks, and other places that require anti-corrosion and durability. Galvanized steel pipe is made of high-quality steel materials, and its specifications can be customized according to customer requirements. It is available in a variety of sizes, ranging from 22mm to 720mm, and can also be customized in terms of thickness. It has different zinc layers, such as 80g, 100g, and 120g. The galvanized steel pipe has strong corrosion resistance and is relatively durable. It can be used for a long time without affecting its performance. It is an ideal choice for places that require high anti-corrosion performance.

Galvanized steel pipe has a series of advantages. First, it is easy to install and has good performance. Second, it has strong corrosion resistance and is not easy to be corroded. Third, it is durable and has a long service life. Fourth, it is cost-effective and affordable. Fifth, it is easy to maintain and clean. Sixth, it has a smooth surface, which is convenient for painting and marking.

The galvanized steel pipe is produced in Shandong, China and certified by ISO, SGS, and MTC. The minimum order quantity is one ton and the price ranges from 600 to 650 USD. The standard packing ensures that the pipe is well protected during transportation. The delivery time is 3 to 5 days and the payment terms are 30% T/T in advance and 70% before shipment. The company has strong production capacity, with a supply ability of 50,000 tons per month.

### Customization:

We offer custom Galvanized Steel Pipe services with the following features:

Place of Origin: Shandong

Certification: ISO SGS MTC

Minimum Order Quantity: 1 ton

Price: 580 - 640 USD

Packaging Details: Standard packing

Delivery Time: 3 - 5 days

Payment Terms: 30% T/T 70% before shipping

Supply Ability: 50000 ton/month

Surface Treatment: Galvanized

Material: Galvanized Steel

Length: 6m Or As Request

Size: 22mm - 720mm

Application: Construction, Machinery, Electronics, Light Industry, Etc.

57mm - 89mm thickness, DX51D GI tubes, DC51D Galvanized Pipes

### Support and Services:

Galvanized Steel Pipe Technical Support and Service:

Our team of experts provide technical support and service for all galvanized steel pipe products. We are committed to providing the highest quality of service and are available to assist you with any questions or inquiries.

Our team is knowledgeable in the installation, maintenance, and repair of galvanized steel pipe products. We provide an array of services including:

Designing custom pipe systems

Installing and testing new systems

Troubleshooting and repairing existing systems

Conducting maintenance checks and inspections

Providing emergency services

Our team is dedicated to providing quality technical support and service for all galvanized steel pipe products. We are available to answer any questions or provide assistance with any issues you may have.

### Packing and Shipping:

Packaging and Shipping for Galvanized Steel Pipe:

Galvanized steel pipes are typically packaged in bundles of 10-20 pieces and wrapped with plastic or paper for protection against dirt and moisture. The pipes are then secured with bands, straps, or rope, and shipped in a container or on a pallet.

## FAQ:

Q: What is Galvanized Steel Pipe?

A: Galvanized Steel Pipe is a type of steel pipe with zinc coating, which has good corrosion resistance and can be used in residential, commercial, industrial, and agricultural applications.

Q: Where is Galvanized Steel Pipe from?

A: Galvanized Steel Pipe is from Shandong, China.

Q: What certifications does Galvanized Steel Pipe have?

A: Galvanized Steel Pipe has ISO SGS MTC certifications.

Q: What's the Minimum Order Quantity for Galvanized Steel Pipe?

A: The Minimum Order Quantity for Galvanized Steel Pipe is 1 ton.

Q: How much does Galvanized Steel Pipe cost?

A: The price for Galvanized Steel Pipe is 580 - 640 USD per ton.

Q: How is Galvanized Steel Pipe packed?

A: Galvanized Steel Pipe is packed in standard packing.

Q: How long is the delivery time for Galvanized Steel Pipe?

A: The delivery time for Galvanized Steel Pipe is 3 - 5 days.

Q: What payment terms do you accept for Galvanized Steel Pipe?

A: We accept 30% T/T 70% before shipping for Galvanized Steel Pipe.

Q: What's the Supply Ability for Galvanized Steel Pipe?

A: The Supply Ability for Galvanized Steel Pipe is 50000 ton/month.
