

## Flat 15mm Mild Steel Plate Standard Yield Strength And Elongation

### Our Product Introduction

For more products please visit us on [sheetstainless-steel.com](http://sheetstainless-steel.com)

#### Basic Information

- Place of Origin: Wuxi
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard packing
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

#### Product Specification

- Tensile Strength: Standard
- Impact Strength: Standard
- Surface: Natural Black
- Elongation: Standard
- Length: Can Be Customized
- Yield Strength: Standard
- Material: Mild Steel
- Hardness: Standard
- Highlight: **standard yield strength mild steel plate,  
standard elongation mild steel plate,  
flat 15mm mild steel plate**

Product Description:

Mild Steel Plate - Hot-rolled Steel Sheets

Our Mild Steel Plate is made from high-quality Hot-rolled Steel Sheets, providing durability and strength for various industrial and construction applications. As one of the most commonly used materials in the industry, Mild Steel Plate is known for its affordability, versatility, and easy availability.

Our Mild Steel Plate is made from carbon steel, with a composition of Q235 20#, Q345, and Q355, ensuring a high level of strength and toughness. The grade of our Mild Steel Plate makes it suitable for a wide range of applications, including structural components, machinery parts, and general fabrication.

With a length that can be customized according to your specific needs, our Mild Steel Plate offers flexibility in design and application. This allows you to create the perfect size and shape for your project, making it a popular choice among engineers and designers.

The natural black surface finish of our Mild Steel Plate adds a sleek and modern look to any project. This finish not only enhances the visual appeal but also provides a protective layer against corrosion and wear, making our Mild Steel Plate a long-lasting option for your project.

Our Mild Steel Plate has a standard hardness, ensuring its durability and strength in various working conditions. This makes it a reliable and cost-effective choice for various industrial and construction projects.

In conclusion, with its Hot-rolled Steel Sheets, Carbon Steel Sheets, Q345 MS sheets, Standard hardness, and Natural Black surface finish, our Mild Steel Plate is the perfect choice for your next project. Its combination of strength, versatility, and affordability makes it a popular choice among professionals in the industry. Contact us now to learn more about our Mild Steel Plate and how it can meet your specific needs.

Features:

- Product Name: Mild Steel Plate
- Type: Plate
- Tensile Strength: Standard
- Hardness: Standard
- Material: Mild Steel
- Length: Can Be Customized
- Additional Features:
  - Q355 MS Sheets
  - Customized Thickness
  - GB Standard
  - High Tensile Strength

Technical Parameters:

Parameter	Value
Thickness	As Customer's Requirements
Tensile Strength	Standard
Elongation	Standard
Type	Plate
Width	1219mm 1220mm 1500mm
Hardness	Standard
Finish	Hot-rolled
Surface	Natural Black
Grade	Q235, 20#, Q345, Q355
Material	Mild Steel
Key Features	Q235B Steel Plates, Hot-rolled Steel Sheets, Natural Black Finish

Applications:

- Mild Steel Plate - Perfect for Various Industrial Applications
- Brand Name:** Hailian
  - Place of Origin:** Wuxi
  - Certification:** ISO, SGS, MTC
  - Minimum Order Quantity:** 1 ton
  - Price:** 460 - 530 USD/ton
  - Packaging Details:** Standard packing

**Payment Terms:** 30% T/T, 70% before shipping  
**Supply Ability:** 50000 ton/month  
**Yield Strength:** Standard  
**Finish:** Hot-rolled  
**Grade:** Q235, 20#, Q345, Q355  
**Width:** 1219mm, 1220mm, 1500mm  
**Surface:** Natural Black

Mild Steel Plate, also known as Hot-rolled Steel Sheet, is a type of carbon steel that is widely used in various industrial applications. Its versatility, strength, and cost-effectiveness make it a popular choice for many different uses.

At Hailian, we offer high-quality Mild Steel Plates that meet ASTM standards and can be used in a variety of industries, including construction, manufacturing, and transportation. Our Mild Steel Plates are made from 20# MS Sheets, ensuring durability and strength. The Q235B Steel Plates we provide are hot-rolled, which makes them suitable for shaping and forming into different products. This process also gives the plates a smooth and clean surface, perfect for a variety of applications.

One of the key features of our Mild Steel Plate is its black surface, which is achieved through the hot-rolling process. This gives the plates a natural black finish, making it visually appealing and ideal for use in architectural and decorative projects.

Our plates also have a standard yield strength, ensuring that they can withstand high levels of stress and pressure. This makes them suitable for use in heavy-duty structures and equipment.

The Mild Steel Plate is available in various grades, including Q235, 20#, Q345, and Q355, giving customers the flexibility to choose the most suitable grade for their specific needs.

With a width of 1219mm, 1220mm, and 1500mm, our plates can be easily cut and customized to meet specific size requirements. This makes them a popular choice in industries that require precise measurements.

Whether you need Mild Steel Plates for construction, manufacturing, or other industrial applications, Hailian has got you covered. Our plates are competitively priced at 460 - 530 USD/ton, making them an affordable and cost-effective choice for your business.

So why wait? Contact us now to place your order and experience the superior quality and reliability of Hailian's Mild Steel Plates!

## Customization:

Customization Service for Mild Steel Plate

Brand Name: Hailian  
Place of Origin: Wuxi  
Certification: ISO SGS MTC  
Minimum Order Quantity: 1 ton  
Price: 460 - 530 USD/ton  
Packaging Details: Standard packing  
Payment Terms: 30% T/T 70% before shipping  
Supply Ability: 50000 ton/month  
Surface: Natural Black  
Length: Can Be Customized  
Hardness: Standard  
Type: Plate  
Grade: Q235 20# Q345 Q355  
Key Features: MS sheets, GB Standard, 20# MS Sheets

## Support and Services:

Mild Steel Plate Technical Support and Service

At [Company Name], we are dedicated to providing top-quality technical support and service for our Mild Steel Plate product. Our team of experts is available to assist with any questions or concerns you may have about the product, and we are committed to ensuring your satisfaction.

Technical Support

Our technical support team is highly trained and knowledgeable about the Mild Steel Plate product. They are available to provide assistance with installation, troubleshooting, and any other technical issues that may arise. You can reach our technical support team via phone, email, or through our online chat service.

Service

We understand the importance of timely and efficient service for our customers. That's why our service team works diligently to ensure that any issues with the Mild Steel Plate product are resolved quickly and effectively. Our service team is also available to provide maintenance and repair services to keep your product functioning at its best.

Customer Satisfaction

At [Company Name], we prioritize customer satisfaction above all else. We are constantly striving to improve our products and services to meet the needs of our customers. If you have any feedback or suggestions, please do not hesitate to reach out to us. We value your input and are committed to continuously improving our technical support and service.

Conclusion

The Mild Steel Plate product from [Company Name] is not only of high quality, but it also comes with exceptional technical support and service. Our team is dedicated to ensuring your satisfaction and providing you with the best experience possible. Thank you for choosing [Company Name] for your Mild Steel Plate needs.

## Packing and Shipping:

Packaging and Shipping for Mild Steel Plate

Packaging:

Mild Steel Plate is typically packaged and shipped in bundles or as individual pieces, depending on the size and quantity ordered. The plates are usually wrapped in plastic or paper and then secured with metal straps to ensure safe transportation.

For larger orders, the plates may be packed in wooden crates or pallets for added protection during shipping.

Shipping:

Mild Steel Plate can be shipped by various methods depending on the destination and urgency of the order. Some common shipping methods include:

Ground transportation: This is the most cost-effective option for domestic shipments within the same country or region.

Ocean freight: For international shipments, mild steel plates are usually transported by sea in shipping containers. This method may take longer but is more economical for large orders.

Air freight: For urgent orders, air freight is the fastest shipping method. However, it is also the most expensive.

Regardless of the shipping method, we ensure that all mild steel plates are properly packaged and secured for safe transportation. We work with reliable and experienced shipping partners to ensure timely delivery and customer satisfaction.

## FAQ:

**Q: What is the brand name of this product?**

A: The brand name of this product is Hailian.

**Q: Where is this product from?**

A: This product is from Wuxi.

**Q: What certifications does this product have?**

A: This product is certified with ISO, SGS, and MTC.

**Q: What is the minimum order quantity for this product?**

A: The minimum order quantity for this product is 1 ton.

**Q: What is the price range for this product?**

A: The price range for this product is 460 - 530 USD/ton.

**Q: How is this product packaged?**

A: This product is packaged in standard packing.

**Q: What are the payment terms for purchasing this product?**

A: The payment terms for purchasing this product are 30% T/T and 70% before shipping.

**Q: What is the supply ability for this product?**

A: The supply ability for this product is 50000 ton/month.
