

Standard Hardness Mild Steel Metal Sheet 3 8 Inch

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

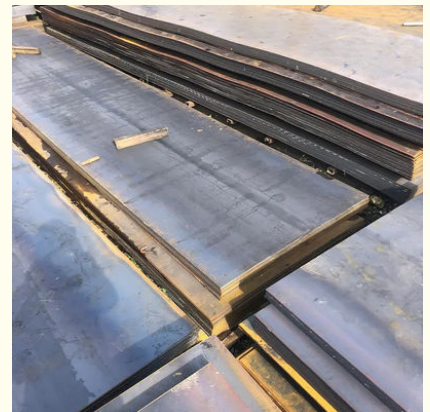

Basic Information

- Place of Origin: Wuxi
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard packing
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

Product Specification

- Tolerance: $\pm 1\%$
- Length: Can Be Customized
- Finish: Hot-rolled
- Type: Plate
- Impact Strength: Standard
- Surface: Natural Black
- Thickness: As Customer's Requirements
- Hardness: Standard
- Highlight: **standard hardness mild steel metal sheet ,
3 8 inch mild steel metal sheet ,
standard hardness 3 8 mild steel plate**

Product Description:

Mild Steel Plate

Mild steel plate is a type of carbon steel plate that is widely used in various industries due to its high strength, durability, and low cost. It is also known as low carbon steel plate or plain steel plate. Mild steel plate is produced by rolling hot-rolled coils and then cutting them into the desired size and shape. It is available in various grades and can be customized according to the specific requirements of the customers.

Product Attributes

Tensile Strength: GB Standard

Grade: Q235B, 20#, Q345, Q355

Elongation: Standard

Length: Can Be Customized

Finish: Hot-rolled

GB Standard

Mild steel plate is manufactured in accordance with the GB Standard, which ensures its quality and reliability. The GB Standard is the national standard of the People's Republic of China and is widely recognized and adopted by many countries around the world. This standard specifies the chemical composition, mechanical properties, and other requirements for mild steel plate, ensuring that it meets the highest standards of quality.

Grades Available

Our company offers a wide range of grades for mild steel plate, including Q235B, 20#, Q345, and Q355. These grades have different chemical compositions and mechanical properties, making them suitable for different applications. Q235B and 20# steel plates are commonly used for general construction, while Q345 and Q355 steel plates are often used in bridges, machinery, and other structural applications.

Customized Length

One of the key advantages of mild steel plate is its flexibility in terms of length. Unlike other types of steel, which are only available in standard lengths, mild steel plate can be customized to meet the specific requirements of the customer. This means that you can order mild steel plate in any length that you need, making it easier to use and more cost-effective.

Hot-rolled Finish

Mild steel plate is typically produced by hot-rolling, a process in which the steel is heated and then passed through a series of rollers to achieve the desired thickness. This results in a smooth, flat surface with a slightly rough texture. The hot-rolled finish not only gives the steel a uniform appearance but also improves its strength and durability. It is the most commonly used finish for mild steel plate and is suitable for a wide range of applications.

Conclusion

Mild steel plate is a versatile and cost-effective product that is used in various industries for its strength, durability, and flexibility. With its GB Standard, various grades, customized length, and hot-rolled finish, it is a reliable and high-quality option for any project. Contact us today to learn more about our mild steel plate and how it can benefit your business.

Features:

Product Name: Mild Steel Plate

Impact Strength: Standard

Type: Plate

Surface: Natural Black

Thickness: As Customer's Requirements

Tensile Strength: Standard

Q345 MS Sheets

ASTM Standard

MS Sheets

Technical Parameters:

Product Name	Mild Steel Plate
Surface	Natural Black
Hardness	Standard
Width	1219mm, 1220mm, 1500mm
Elongation	Standard
Thickness	As Customer's Requirements
Finish	Hot-rolled
Yield Strength	Standard
Tolerance	+/-1%

Grade	Q235, 20#, Q345, Q355
Impact Strength	Standard
Key Features	ASTM Standard, Carbon Steel Sheets, Hot-rolled Steel Sheets

Applications:

Mild Steel Plate - Hailian Brand

Brand Name: Hailian

Place of Origin: Wuxi

Certification: ISO, SGS, MTC

Minimum Order Quantity: 1 ton

Price: 460 - 530 USD/ton

Packaging Details: Standard packing

Payment Terms: 30% T/T, 70% before shipping

Supply Ability: 50000 ton/month

Surface: Natural Black

Yield Strength: Standard

Grade: Q235, 20#, Q345, Q355

Finish: Hot-rolled

Hardness: Standard

Mild Steel Plate is a type of carbon steel sheet that is commonly used in various industries such as construction, bridges, vehicles, containers, machinery, shipbuilding, petroleum, chemical industry, power plant, agriculture, and building materials. It is a versatile and durable material that is suitable for a wide range of applications.

The Hailian brand Mild Steel Plate is manufactured in Wuxi, China and is certified with ISO, SGS, and MTC. It has a minimum order quantity of 1 ton and is priced competitively at 460 - 530 USD/ton. The packaging is done in standard packing to ensure the safe delivery of the product.

This product is highly customizable in terms of thickness and is available in standard sizes. It is suitable for welding structures and can be used in various construction projects. The high yield strength of this mild steel plate makes it a preferred choice for heavy-duty applications.

The Q235, 20#, Q345, and Q355 grades of the Hailian Mild Steel Plate make it suitable for different levels of strength and durability requirements. It has a natural black surface finish and is hot-rolled for a smooth and even surface. The hardness of the plate is also standardized to ensure consistent quality.

In conclusion, the Hailian Mild Steel Plate is a reputable and reliable product that can be used in a variety of industries and applications. Its quality, strength, and competitive pricing make it a popular choice among customers. Trust in the Hailian brand for your carbon steel sheet needs.

Customization:

Mild Steel Plate Customization Service

Brand Name: Hailian

Place of Origin: Wuxi

Certification: ISO SGS MTC

Minimum Order Quantity: 1 ton

Price: 460 - 530 USD/ton

Packaging Details: Standard packing

Payment Terms: 30% T/T 70% before shipping

Supply Ability: 50000 ton/month

Elongation: Standard

Grade: Q235 20# Q345 Q355

Yield Strength: Standard

Thickness: As Customer's Requirements

Finish: Hot-rolled

Looking for high-quality mild steel plate customized to your specific needs? Look no further than Hailian! Our Q355 MS Sheets are available in a wide range of thicknesses, all manufactured to meet ASTM standards. With our ISO, SGS, and MTC certifications, you can trust the quality of our products. And with a minimum order quantity of just 1 ton, you can get exactly what you need without any excess. Don't settle for anything less than the best – choose Hailian for your mild steel plate needs.

Support and Services:

Mild Steel Plate Technical Support and Services

At our company, we are dedicated to providing the highest quality mild steel plate products and services to our customers. Our team of experts has extensive knowledge and experience in the field of mild steel plate manufacturing, ensuring that our products meet the highest standards of quality and durability.

Technical Support

We offer comprehensive technical support to our customers, ensuring that any questions or concerns regarding our mild steel plate products are addressed promptly and accurately. Our technical support team is available to assist with product selection, installation, and any other technical issues that may arise.

Customization Services

In addition to our standard mild steel plate products, we also offer customization services to meet the specific needs of our customers. Our team can work with you to create custom sizes, shapes, and finishes to fit your unique project requirements.

Expert Consultation

Our team of experts is always available to provide consultation and guidance on the best use of mild steel plate products for your project. We can offer advice on material selection, design, and any other technical considerations to ensure the success of your project.

Quality Assurance

We take great pride in the quality of our mild steel plate products and have implemented strict quality control measures to ensure that every product meets our high standards. Our team conducts thorough inspections and tests on all products before they are delivered to our customers.

On-Site Services

We also offer on-site services for installation, fabrication, and repair of mild steel plate products. Our experienced technicians will ensure that your products are installed correctly and efficiently, minimizing any downtime and ensuring the safety and durability of your project. Thank you for choosing our mild steel plate products. We are committed to providing top-notch technical support and services to ensure the success of your project. Please do not hesitate to contact us for any assistance or inquiries.

Packing and Shipping:

Packaging and Shipping of Mild Steel Plate

The Mild Steel Plate is packaged and shipped in a secure and efficient manner to ensure its safe delivery to the customers. The following steps are taken for packaging and shipping:

The Mild Steel Plate is first inspected for any damage or defects before packaging.

The plate is then cleaned and coated with a protective layer to prevent corrosion during transportation.

It is then securely wrapped in a layer of plastic or bubble wrap to provide additional protection.

The plate is placed in a strong and durable cardboard box to prevent any damage during shipment.

Additional cushioning materials, such as foam or packing peanuts, are added to fill any empty spaces in the box and provide extra support.

The box is sealed with strong packaging tape to ensure it stays intact during shipping.

Finally, the box is labeled with the customer's address and shipping details.

Once packaged, the Mild Steel Plate is ready for shipping. We work with trusted and reliable shipping companies to ensure timely delivery of the product. The plate can be shipped domestically or internationally, depending on the customer's location and preference. Customers are provided with a tracking number to keep track of their shipment and ensure its safe arrival.

At the destination, the Mild Steel Plate can be easily unpacked and used for its intended purpose.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Hailian.

Q: Where is this product made?

A: This product is made in Wuxi.

Q: What certifications does this product have?

A: This product has ISO, SGS, and MTC certifications.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1 ton.

Q: What is the price range for this product?

A: The price for this product ranges from 460 to 530 USD per ton.

Q: How is this product packaged?

A: This product is packaged in standard packing.

Q: What are the payment terms for this product?

A: The payment terms for this product are 30% T/T and 70% before shipping.

Q: What is the supply ability of this product?

A: The supply ability for this product is 50000 ton per month.
