

Standard Q345 Ms 5mm Steel Plate Hot Rolled Finish High Tensile Strength

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Wuxi
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard packing
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

Product Specification

- Width: 1219mm 1220mm 1500mm
- Hardness: Standard
- Type: Plate
- Elongation: Standard
- Grade: Q235 20# Q345 Q355
- Material: Mild Steel
- Surface: Natural Black
- Length: Can Be Customized
- Highlight: **q345 5mm steel plate,
hot rolled finish 5mm steel plate,
5mm mild steel sheet metal**

Product Description:

Mild Steel Plate - GB Standard Q345 MS Sheets

Mild steel plate, also known as low carbon steel plate, is a type of carbon steel with a low amount of carbon content. It is widely used in industrial applications due to its versatility and cost-effectiveness. Our mild steel plate is made to GB standard and is known for its high strength and durability.

Our mild steel plate is made from Q345 MS sheets, which are carbon steel sheets that have been hot-rolled and formed into a plate shape. Q345 MS sheets are known for their excellent formability, weldability, and machinability, making them ideal for structural steel applications.

Product Attributes:

Tensile Strength: Standard

Hardness: Standard

Yield Strength: Standard

Impact Strength: Standard

Thickness: As Customer's Requirements

Our mild steel plate is suitable for a wide range of industrial uses, including construction, manufacturing, and fabrication. It is commonly used in the production of bridges, buildings, machinery, and other structural components.

One of the key advantages of our mild steel plate is its high strength, which allows for the construction of strong and durable structures. The GB standard ensures that our mild steel plate meets the necessary quality and safety standards for industrial use.

In addition to its strength, our mild steel plate also has good ductility and toughness, making it resistant to impact and able to withstand heavy loads. This makes it a reliable choice for industrial applications that require a strong and durable material.

We offer a variety of thickness options for our mild steel plate, allowing our customers to choose the best fit for their specific needs. Our experienced team can also assist with custom thickness requirements to meet the unique demands of each project.

Overall, our mild steel plate is a cost-effective and versatile option for a wide range of industrial applications. Its high strength, durability, and compliance with GB standards make it a reliable choice for structural steel needs. Contact us today to learn more about our product and how it can benefit your business.

Features:

Product Name: Mild Steel Plate

tolerance: +/-1%

width: 1219mm 1220mm 1500mm

hardness: Standard

elongation: Standard

tensile strength: Standard

Key focus: Q345 MS sheets, Q355 MS Sheets, Q345 MS sheets

Technical Parameters:

Parameter	Value
Product Name	Mild Steel Plate
Material	Carbon Steel Sheets
Length	Can Be Customized
Width	1219mm, 1220mm, 1500mm
Thickness	Customized thickness
Finish	Hot-rolled
Tensile Strength	Standard
Yield Strength	Standard
Hardness	Standard
Tolerance	+/- 1%
Elongation	Standard
Surface	Natural Black
Keyword	20# MS Sheets

Applications:

Mild Steel Plate

Brand Name: Hailian
Place of Origin: Wuxi
Certification: ISO SGS MTC
Minimum Order Quantity: 1 ton
Price: 460 - 530 USD/ton
Packaging Details: Standard packing
Payment Terms: 30% T/T 70% before shipping
Supply Ability: 50000 ton/month
Surface: Natural Black
Finish: Hot-rolled
Impact Strength: Standard
Thickness: As Customer's Requirements
Type: Plate

Mild Steel Plate, also known as 20# MS Sheets, is a type of structural steel that is widely used in various industries. Produced and distributed by Hailian, a leading brand in the steel industry, these plates are manufactured in Wuxi, China and have been certified by ISO, SGS, and MTC.

With a minimum order quantity of just 1 ton, these MS sheets are affordable and suitable for small to large-scale projects. The price range of 460-530 USD/ton makes it a cost-effective option for construction companies, builders, and manufacturers.

Mild Steel Plate is commonly used as a building material for its strength and durability. It is an essential component in constructing high-rise buildings, bridges, and other structures. Its versatility also makes it suitable for a wide range of applications, including shipbuilding, machinery manufacturing, railway construction, and automotive parts.

The hot-rolled finish of these plates ensures a smooth and even surface, making it ideal for welding and fabrication. Its impact strength meets the standard requirements, ensuring the safety and reliability of the structures where it is used.

The thickness of the Mild Steel Plate can be customized according to the customer's requirements, providing flexibility and convenience for different projects. Its plate type makes it easy to transport and handle, making it a preferred choice for container manufacturing and other industries.

In conclusion, Mild Steel Plate is a versatile and cost-effective solution for various construction and manufacturing needs. Its high-quality standards, affordability, and customizable features make it a popular choice among customers. Choose Hailian's Mild Steel Plate for your next project and experience its superior performance and durability.

Customization:

Customized Services for Hailian Mild Steel Plate

Brand Name: Hailian
Place of Origin: Wuxi
Certification: ISO, SGS, MTC
Minimum Order Quantity: 1 ton
Price: 460 - 530 USD/ton
Packaging Details: Standard packing
Payment Terms: 30% T/T, 70% before shipping
Supply Ability: 50000 ton/month
Elongation: Standard
Tensile Strength: Standard
Impact Strength: Standard
Finish: Hot-rolled
Width: 1219mm, 1220mm, 1500mm
Customized Thickness: Available
Product Type: MS Sheets
Standard: GB Standard

Support and Services:

Technical Support and Services for Mild Steel Plate

Our company is committed to providing high-quality technical support and services for our Mild Steel Plate product. We understand the importance of reliable and efficient support for our customers, and we strive to meet their needs and exceed their expectations.

Our team of highly skilled engineers and technicians are available to provide technical assistance and troubleshooting for any issues that may arise with your Mild Steel Plate. They are well-trained and have extensive knowledge of our product, and are dedicated to finding solutions to any problems you may encounter.

We also offer remote support services, allowing us to quickly and efficiently address any technical issues without the need for an on-site visit. This saves our customers time and ensures a rapid resolution to any problems they may be experiencing.

Services

In addition to technical support, we also offer a range of services to ensure the best use and maintenance of your Mild Steel Plate product. These services include:

Installation and commissioning

Maintenance and repairs

Training and education on product use and safety

Customization and modifications to meet specific requirements

Our team is dedicated to providing these services with the highest level of professionalism and expertise. We are committed to ensuring that your Mild Steel Plate performs at its best and meets your expectations.

Contact Us

If you require any technical support or services for your Mild Steel Plate, please don't hesitate to contact us. Our team is available 24/7 to assist you with any questions or concerns you may have. We value our customers and strive to provide the best support and services possible to ensure their satisfaction.

Thank you for choosing our Mild Steel Plate product. We look forward to working with you and providing the best technical support and services for your needs.

Packing and Shipping:

Mild Steel Plate Packaging and Shipping

Our Mild Steel Plate is carefully packaged to ensure safe delivery to our customers worldwide.

Packaging

The Mild Steel Plate is first wrapped in protective material to prevent scratches and damage during transportation. It is then placed in a durable wooden crate or pallet for added protection.

We also offer customized packaging options for bulk orders to meet our customers' specific requirements.

Shipping

We ship our Mild Steel Plate via various modes of transportation such as sea, air, or land, depending on the location and urgency of the delivery.

For international shipments, we ensure that all necessary customs and shipping documents are in order to avoid any delays or issues during transit.

Our team works closely with reliable shipping partners to ensure timely and efficient delivery of our products to our customers.

For any inquiries or special requests regarding packaging and shipping, please contact our customer service team. We are committed to providing the best packaging and shipping solutions for our customers' needs.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Hailian.

Q: Where is this product manufactured?

A: This product is manufactured in Wuxi, China.

Q: What certifications does this product have?

A: This product is certified with ISO, SGS, and MTC.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1 ton.

Q: What is the price range for this product?

A: The price for this product ranges from 460 to 530 USD per ton.

Q: How is this product packaged for shipping?

A: This product is packaged in standard packing for shipping.

Q: What are the payment terms for this product?

A: The payment terms for this product are 30% T/T and 70% before shipping.

Q: What is the supply ability for this product?

A: The supply ability for this product is 50000 ton per month.
