Basic Information

- Place of Origin: Wuxi
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

Product Specification

- Technique: Cold Rolled, Hot Rolled
- Steel Grade: 304 316 316L 430 201 310s
- Standard: ASTM, AISI, JIS, DIN, EN
- Packing: Standard Sea-worthy Packing
- Processing Technology: Cold Rolled
- Processing Service: Cutting, Bending, Welding, Etc.
- Third Party: SGS ISO
- Material: Stainless Steel
- Highlight: 2mm 304 stainless steel sheet plate,
AISI stainless steel sheet plate,
AISI 2mm 304 stainless steel sheet

Product Description

Product Description:

Stainless Steel Plate

Our Stainless Steel Plate is a high-quality product that is widely used in various industries. It is made of stainless steel, a material known for its strength, durability, and corrosion resistance. This makes our Stainless Steel Plate a reliable and long-lasting option for your industrial needs.

Technique

Our Stainless Steel Plate is available in two techniques: Cold Rolled and Hot Rolled. Cold Rolled technique involves passing the steel through rollers at room temperature, resulting in a smoother and more precise finish. Hot Rolled technique, on the other hand, involves heating the steel at high temperatures and then rolling it, resulting in a rougher surface but with a better structural integrity. Both techniques have their own advantages and are suitable for different applications.

Species

Our Stainless Steel Plate belongs to the plate species, which is a flat and rectangular-shaped piece of steel. This type of species is commonly used in construction, industrial, and manufacturing applications due to its versatility and strength. Our Stainless Steel Plate is available in various sizes to meet your specific requirements.

Length

Our Stainless Steel Plate is available in lengths ranging from 2000mm to 6000mm. This gives you the flexibility to choose the length that best suits your needs. Whether you need a longer or shorter plate, we have you covered. Our Stainless Steel Plate is also available in custom lengths upon request.

Packing

Our Stainless Steel Plate is packed using a standard sea-worthy packing method. This ensures that your product is well-protected during transportation and arrives at your location in perfect condition. We understand the importance of proper packaging in preserving the quality of our products and we make sure to follow strict standards to ensure customer satisfaction.

In conclusion, our Stainless Steel Plate is a top-of-the-line product that offers strength, durability, and corrosion resistance. With two techniques, various sizes, and proper packaging, our Stainless Steel Plate is the perfect choice for your industrial needs. Contact us now to get a quote and experience the quality of our Stainless Steel Plate for yourself.

Features:

Product Name: Stainless Steel Sheet Plate

Packing: Standard Sea-worthy Packing

Species: Plate

Length: 2000mm-6000mm

Steel Grade: 304, 316, 316l, 430, 201, 310s

Package: Standard Export Package, Or As Required

Technical Parameters:

Technical Data of Stainless Steel Sheet Plate	
Species	Plate
Package	Standard Export Package, Or As Required
Processing Service	Cutting, Bending, Welding, Etc.
Item	Stainless Steel Plate
Technique	Cold Rolled, Hot Rolled
Standard	ASTM, AISI, JIS, DIN, EN
Steel Grade	304 316 316l 430 201 310s
Width	1000mm-2000mm
Technical	Cold Rolled/ Hot Rolled
Packing	Standard Sea-worthy Packing
Product Keywords	Stainless Steel Plate, Stainless Steel Sheet, Stainless Steel Sheet Plate

Applications:

Stainless Steel Sheet Plate

The Stainless Steel Sheet Plate is a high-quality product offered by Hailian, a reputable brand from Wuxi, China. It is certified by ISO, SGS, and MTC, ensuring its superior quality and reliability.

With a minimum order quantity of 1 ton and a price range of 1500-1750 USD/ton, this product is suitable for various applications in different industries. It is commonly used in construction, automotive, manufacturing, and many other fields.

The Stainless Steel Sheet Plate is made of stainless steel, a corrosion-resistant and durable material. It meets the standards of ASTM, AISI, JIS, DIN, and EN, ensuring its high quality and compatibility with various projects.

There are various steel grades available for this product, including 304, 316, 316L, 430, 201, and 310s. This allows customers to choose the most suitable grade for their specific needs.

The packaging of this product is done in a standard export package, or as per the customer's requirements. This ensures safe and secure transportation of the product to its destination.

The delivery time for the Stainless Steel Sheet Plate is 3-5 days, making it a convenient and time-efficient option for customers. The payment terms are also flexible, with a 30% T/T deposit and 70% payment before shipping.

With a supply ability of 50000 ton/month, the Stainless Steel Sheet Plate is readily available for large orders and can meet the demands of different industries and projects.

Overall, the Stainless Steel Sheet Plate is a versatile and high-quality product suitable for various applications and industries. Its superior quality, convenient delivery, and flexible payment terms make it a popular choice among customers. Choose Hailian's Stainless Steel Sheet Plate for your next project and experience its exceptional performance and durability.

Customization:

Stainless Steel Sheet Plate - Customization Service

Brand Name: Hailian

Support and Services:

Technical Support and Service for Stainless Steel Sheet Plate

At Stainless Steel Sheet Plate, we are committed to providing our customers with the highest level of technical support and service. Our team of experts is dedicated to helping you find the perfect stainless steel sheet plate for your specific needs and providing you with all the necessary assistance to ensure a successful installation and usage.

Technical Support

Our technical support team is well-trained and knowledgeable about all aspects of stainless steel sheet plate. They are available to answer any questions you may have, provide guidance on product selection, and assist with any technical issues that may arise during installation or usage.

We also offer comprehensive technical documentation, including product specifications, installation instructions, and maintenance guidelines, to help you better understand our products and ensure their proper usage.

Customization Services

At Stainless Steel Sheet Plate, we understand that each project is unique, and one size does not fit all. That's why we offer customization services to meet your specific requirements. Our team will work closely with you to understand your needs and provide customized solutions that are tailored to your project.

Quality Assurance

We take pride in the quality of our stainless steel sheet plate and stand behind our products. All our products undergo strict quality control measures to ensure they meet the highest standards. In the rare case that you encounter any issues with our products, our team is here to provide prompt assistance and resolve the issue to your satisfaction.

Fast and Reliable Delivery

We understand the importance of timely delivery, and our logistics team works tirelessly to ensure your stainless steel sheet plate is delivered to you as quickly as possible. We have a wide distribution network, and our partnerships with reliable shipping companies allow us to provide fast and efficient delivery to customers worldwide.

Choose Stainless Steel Sheet Plate for top-quality products, exceptional technical support, and reliable service. Contact us today for all your stainless steel sheet plate needs.

Packing and Shipping:

Packaging and Shipping of Stainless Steel Sheet Plate

At Stainless Steel Sheet Plate, we ensure that our products are packaged and shipped with the utmost care to ensure their safe delivery to our customers. Here's a breakdown of our packaging and shipping process:

Packaging:

Each sheet or plate is first wrapped in protective plastic to prevent scratches or damage during transportation.

The wrapped sheet or plate is then placed in a sturdy wooden crate or box for added protection.

All necessary documents, such as packing list and invoice, are included in the package.

The package is then sealed and labeled with the product details and shipping information.

Shipping:

We offer various shipping options, including air freight, sea freight, and express delivery, to meet our customers' specific needs.

For international orders, all necessary customs clearance procedures and documents are taken care of by our team to ensure a smooth delivery process.

We work with reliable and trusted shipping companies to ensure timely and secure delivery of our products.

Customers can track their orders through a tracking number provided after shipment.

We also offer insurance options for added protection of our products during shipping.

At Stainless Steel Sheet Plate, we are committed to providing our customers with high-quality products and exceptional service. Our packaging and shipping process is just another way we strive to meet and exceed our customers' expectations.
