

1 4 Stainless Steel Sheet Plate 304 316 316l 430 201 310s For Food Processing Industry

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

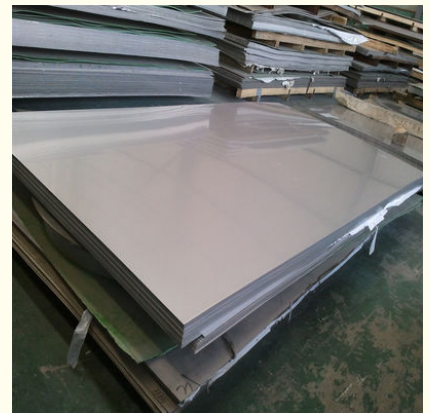

Basic Information

- Place of Origin: Wuxi
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

Product Specification

- Length: 2000mm-6000mm
- Width: 1000mm-2000mm
- Package: Standard Export Package, Or As Required
- Item: Stainless Steel Plate
- Material: Stainless Steel
- Packing: Standard Sea-worthy Packing
- Steel Grade: 304 316 316l 430 201 310s
- Third Party: SGS ISO
- Highlight: 1 4 316 stainless steel sheet plate,
food industry stainless steel sheet plate,
1 4 304 stainless steel plate

Product Description

Product Description:

Stainless Steel Sheet Plate

Stainless Steel Sheet Plate is a type of flat-rolled steel that is made from stainless steel. It is widely used in various industries such as construction, automotive, and manufacturing due to its high temperature resistance, corrosion resistance, durability, and versatility. It is a popular choice for many applications because of its aesthetic appeal and ability to withstand harsh environments.

Item: Stainless Steel Plate

Stainless Steel Plate is a flat-rolled steel product that is made from stainless steel. It is available in various sizes and thicknesses to suit different applications. The most common steel grades used for stainless steel plates are 304, 316, 316l, 430, 201, and 310s. These steel grades offer different levels of corrosion resistance and strength, making them suitable for a wide range of applications.

Length: 2000mm-6000mm

Stainless Steel Plate is available in a range of lengths, typically ranging from 2000mm to 6000mm. This allows for flexibility in design and allows for customization to fit specific project requirements. Longer lengths can also help to reduce the number of joints needed, which can improve the overall strength and durability of the final product.

Technique: Cold Rolled, Hot Rolled

Stainless Steel Plate can be produced using two main techniques: cold rolling and hot rolling. Cold rolling involves passing the steel through a series of rollers at room temperature, resulting in a smoother and more precise finish. Hot rolling involves heating the steel to high temperatures and passing it through rollers, which can result in a rougher surface but also increases the strength and toughness of the steel.

Processing Service: Cutting, Bending, Welding, Etc.

Stainless Steel Plate offers a wide range of processing services to meet the specific needs of different applications. These services include cutting, bending, welding, and more. Cutting allows for customization of shape and size, while bending helps to create curved or angled pieces. Welding is used to join multiple pieces of steel together to create larger structures or components.

Conclusion

In conclusion, Stainless Steel Sheet Plate is a versatile and durable product that offers high temperature resistance, corrosion resistance, and aesthetic appeal. It is available in various steel grades, lengths, and can be produced using different techniques and processing services. Whether for construction, automotive, or manufacturing, stainless steel plate is a reliable and cost-effective choice for a wide range of applications.

Features:

Product Name: Stainless Steel Sheet Plate

Width: 1000mm-2000mm

Technical: Cold Rolled/ Hot Rolled

Package: Standard Export Package, Or As Required

Size: As Customer's Requirement

Standard: ASTM, AISI, JIS, DIN, EN

Product Features:

High Quality Stainless Steel Sheet Plate

Wide Range of Width Options: 1000mm-2000mm

Advanced Technical Processes: Cold Rolled/ Hot Rolled

Secure Packaging: Standard Export Package, Or As Required

Customizable Sizes: As Customer's Requirement

Compliant with International Standards: ASTM, AISI, JIS, DIN, EN

Material	Stainless Steel
Processing Technology	Cold Rolled
Width	1000mm-2000mm
Technique	Cold Rolled, Hot Rolled

Applications:

Welcome to Hailian

Stainless Steel Sheet Plate

Brand Name: Hailian

Place of Origin: Wuxi

Certification: ISO SGS MTC

Minimum Order Quantity: 1 ton

Price: 1500 - 1750 USD/ton

Packaging Details: Standard packing

Delivery Time: 3 - 5 days

Payment Terms: 30% T/T 70% before shipping

Supply Ability: 50000 ton/month

Third Party: SGS ISO

Technique: Cold Rolled, Hot Rolled

Product Description: Our Stainless Steel Sheet Plate is made from high-quality stainless steel using the latest processing technology - cold rolling. This technique ensures that our products have a smooth surface and precise dimensions. With a width ranging from 1000mm-2000mm, our sheet plates are versatile and can be used for various applications.

Product Attributes: Our Stainless Steel Sheet Plate has the following attributes:

High-Quality

Durable

Corrosion-Resistant

Versatile

Wide Range of Applications

Customization:

Stainless Steel Sheet Plate Customized Service from Hailian

Brand Name: Hailian

Place of Origin: Wuxi

Certification: ISO, SGS, MTC

Minimum Order Quantity: 1 ton

Price: 1500 - 1750 USD/ton

Packaging Details: Standard packing

Delivery Time: 3 - 5 days

Payment Terms: 30% T/T, 70% before shipping

Supply Ability: 50000 ton/month

Technical: Cold Rolled/ Hot Rolled

Package: Standard Export Package, Or As Required

Technique: Cold Rolled, Hot Rolled

Species: Plate

Item: Stainless Steel Plate

Support and Services:

Technical Support and Services for Stainless Steel Sheet Plate

At Stainless Steel Sheet Plate, we are dedicated to providing our customers with the best technical support and services for our products. We understand that our customers have unique needs and we strive to meet those needs with our expertise and resources.

Technical Support

Our team of highly skilled engineers and technical experts are always available to provide technical support for any questions or concerns you may have regarding our stainless steel sheet plate. We offer a variety of support options, including phone, email, and live chat, to ensure that you receive the assistance you need in a timely manner.

In addition, we provide detailed product information, technical specifications, and installation guides to help you better understand our stainless steel sheet plate and how to use it effectively.

Customization Services

At Stainless Steel Sheet Plate, we understand that each project is unique and may require customized solutions. That's why we offer customization services to meet your specific requirements. Our team will work closely with you to understand your needs and provide a

tailored solution that meets your project's specifications.

Quality Control

We take quality control seriously and ensure that all of our stainless steel sheet plates are manufactured to the highest standards. Our products undergo rigorous testing and inspection to ensure they meet our customers' expectations for quality and reliability.

After-Sales Service

Our commitment to our customers doesn't end after the sale. We provide excellent after-sales service to ensure your satisfaction with our products. If you encounter any issues or have any questions after purchasing our stainless steel sheet plate, our team is here to assist you.

Conclusion

Stainless Steel Sheet Plate is dedicated to providing top-notch technical support and services to our customers. We are committed to delivering high-quality products and ensuring our customers have a positive experience with our company. Contact us today for all your stainless steel sheet plate needs.

Packing and Shipping:

Packaging and Shipping of Stainless Steel Sheet Plate

Our Stainless Steel Sheet Plate is carefully packaged and shipped to ensure its safety and quality during transportation. The packaging methods we use are designed to protect the product from any damage that may occur during handling and transit.

Packaging:

1. Each Stainless Steel Sheet Plate is wrapped with protective plastic film to prevent scratches and surface damage.
2. The wrapped Stainless Steel Sheet Plate is then placed in a strong wooden crate or pallet to provide extra protection during shipping.
3. The crate or pallet is secured with strong straps and shrink wrap to keep the product in place and prevent any movement.
4. For smaller quantities, the Stainless Steel Sheet Plate is packed in sturdy cardboard boxes with proper cushioning material to ensure its safety.

Shipping:

1. We offer various shipping options including sea freight, air freight, and land transportation to meet the specific needs of our customers.
2. Our experienced logistics team carefully coordinates the shipping process to ensure timely delivery of the product.
3. We work with trusted shipping carriers to ensure that your Stainless Steel Sheet Plate is delivered to you safely and on time.
4. We provide all necessary shipping documents and tracking information to our customers for easy tracking and monitoring of their orders.

At Stainless Steel Co., we take every precaution to ensure the safe and timely delivery of our products. If you have any special packaging or shipping requirements, please feel free to contact us and we will do our best to accommodate your needs.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Hailian.

Q: Where is this product manufactured?

A: This product is manufactured in Wuxi.

Q: What certifications does this product have?

A: This product is certified by ISO, SGS, and MTC.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1 ton.

Q: What is the price range for this product?

A: The price for this product ranges from 1500 to 1750 USD per ton.

Q: How is this product packaged?

A: This product is packaged in standard packing.

Q: How long is the delivery time for this product?

A: The delivery time for this product is 3 to 5 days.

Q: What are the payment terms for this product?

A: The payment terms for this product are 30% T/T and 70% before shipping.

Q: What is the supply ability for this product?

A: The supply ability for this product is 50000 tons per month.
