Basic Information

- Place of Origin: Wuxi
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

Product Specification

- Keyword: Stainless Steel
- Process: Cold -rolling
- Corrosion Resistance: High
- Outside Diameter: 4mm To 2500mm(1/8"inch-120"inch)
- Steel Grade: 400 Series 304 201 316L
- Surface: MIRROR / SATIN / Matt Black
- Invoicing: By Actual Weight
- Packing: Standard Seaworthy Package
- Highlight: **Grade 430 stainless steel seamless pipe, Durable Construction stainless steel seamless pipe, Grade 430 seamless stainless steel tubing**

Product Description:

Stainless Steel Pipe Tube

Stainless Steel Pipe Tube is a type of pipe made from high-quality stainless steel, which is known for its durability, corrosion resistance, and aesthetic appeal. It is widely used in various industries such as construction, architecture, automotive, and many others.

Product Overview

Stainless Steel Pipe Tube is available in various grades including 304, 201, 316, 304L, 420, 430, 410, and 310S. Each grade has its unique properties and is suitable for specific applications. This ensures that our customers get the right product for their specific needs.

Stainless Steel Decoration Pipe

Stainless Steel Decoration Pipe is a type of pipe that is specially designed for decorative purposes. It is commonly used in architecture, interior design, and furniture making. With its smooth and shiny surface, it adds a touch of elegance to any space.

Stainless Steel Welded Pipe

Stainless Steel Welded Pipe is a type of pipe that is made by welding steel plates or strips together. It is a cost-effective option for applications that require high strength and corrosion resistance. The welded joints are strong and durable, making it suitable for various industrial and commercial uses.

Stainless Steel Seamless Pipe

Stainless Steel Seamless Pipe is a type of pipe that is made by piercing a solid steel billet or bar to form a hollow tube. It has a smooth and uniform surface, making it ideal for applications where a high level of cleanliness is required. It is commonly used in the food and beverage industry, pharmaceuticals, and chemical processing.

Product Specifications

Grade: 304, 201, 316, 304L, 420, 430, 410, 310S

Packing: Standard Seaworthy Package

Outer Diameter: Customized

Outside Diameter: 4mm to 2500mm (1/8"inch-120"inch)

Invoicing: By Actual Weight

With our customized outer diameter options, customers can get the exact size they need for their projects. Our products are packed in standard seaworthy packages to ensure safe and secure delivery. Invoicing is done by actual weight, ensuring fair and transparent transactions.

Stainless Steel Pipe Tube - Perfect for Various Applications

Are you looking for a durable and high-quality stainless steel pipe tube for your next project? Look no further because Hailian, a reputable manufacturer from Wuxi, China, offers a wide range of stainless steel pipe tubes suitable for various applications. Our products are known for their exceptional quality, competitive prices, and timely delivery.

Brand Name: Hailian

Hailian is a trusted brand in the stainless steel industry, known for its commitment to providing top-notch products and services to customers worldwide. With our state-of-the-art facilities and highly skilled team, we are able to produce stainless steel pipe tubes that meet international standards and exceed customer expectations.

Place of Origin: Wuxi, China

Our factory is located in Wuxi, a city in Jiangsu, China, known for its advanced technology and bustling industrial sector. Our strategic location allows us to source high-quality raw materials and deliver products to customers in a timely and cost-effective manner.

Certification: ISO, SGS, MTC

We understand the importance of quality and safety in the stainless steel industry. That's why our products are certified by ISO, SGS, and MTC, ensuring that they meet international standards and are safe to use in various applications.

Minimum Order Quantity: 1 ton

At Hailian, we believe in providing flexibility to our customers. That's why we have set our minimum order quantity at 1 ton, allowing customers to order the exact amount they need without any excessive wastage.

Price: 2300-2518 USD/ton

We offer competitive prices for our stainless steel pipe tubes, starting from 2300-2518 USD per ton, making it an economical choice for customers without compromising on quality.

Packaging Details: Standard Packing

Our stainless steel pipe tubes are packaged in standard seaworthy packages, ensuring safe and secure transportation to customers worldwide. This packaging also helps to protect the products from any damage during transit.

Delivery Time: 3 - 5 days

With our efficient production process and well-managed logistics, we are able to deliver our products to customers within 3-5 days, ensuring timely completion of projects and minimizing any delays.

Payment Terms: 30% T/T 70% Before Shipping

We offer flexible payment terms to our customers, with a 30% deposit required before shipping and the remaining 70% to be paid upon delivery. This allows customers to manage their finances effectively and only pay when they have received the products.

Supply Ability: 50000 ton/month

With our well-equipped factory and efficient production process, we have the capacity to produce 50,000 tons of stainless steel pipe tubes per month, ensuring a steady supply to meet the demands of our customers.

Packing: Standard Export Package

Our stainless steel pipe tubes are packed in standard export packages, suitable for long-distance transportation. This packaging also helps to protect the products from any external factors that may affect their quality.

Invoicing: By Actual Weight

At Hailian, we invoice our customers based on the actual weight of the products, ensuring transparency and accuracy in our transactions. This also allows customers to pay for only the amount of products they have received.

Thickness: As Request

We offer customizable options for the thickness of our stainless steel pipe tubes, allowing customers to request the exact thickness they need for their specific applications. This ensures that our products meet the exact requirements of our customers.

Stainless Steel Decoration Pipe

Our stainless steel pipe tubes are perfect for decoration purposes, thanks to their sleek and modern appearance. They are commonly used in interior and exterior design, adding a touch of elegance and sophistication to any space.

Stainless Steel Exhaust Pipe

Our stainless steel pipe tubes are also ideal for use in exhaust systems. They are highly resistant to corrosion and can withstand high temperatures, making them a durable and reliable choice for exhaust pipes.

316 Stainless Steel Pipes

We offer 316 stainless steel pipes, known for their excellent corrosion resistance and high strength. These pipes are commonly used in harsh environments and industries such as marine, chemical, and food processing.

Stainless Steel Welded Pipe

Our stainless steel pipe tubes are available in both welded and seamless options. Our welded pipes are made using advanced welding techniques, ensuring a strong and seamless connection for efficient and leak-proof performance.

Stainless Steel Square Pipe

We also offer stainless steel square pipes, which are widely used in construction, furniture, and other structural applications. They are known for their high strength and durability, making them a popular choice in various industries.

In conclusion, Hailian's stainless steel pipe tubes are versatile and suitable for various applications, thanks to their exceptional quality, competitive prices, and timely delivery. Contact us today to learn more about our products and how we can meet your specific requirements.
