Product Description

430 420 410 Stainless Steel Sheets 3mm 5mm thickness Chinese Inox Plates 1220*2440mm Size

Product Description

430 stainless steel is commonly used where corrosion resistance is required, such as in kitchen appliances, automotive trim, architectural trim, and industrial equipment. It is also used for some cookware and utensils. However, it is not suitable for highly corrosive environments. While 430 stainless steel offers good corrosion resistance in pH-neutral and mildly acidic environments, it is susceptible to pitting corrosion in saltwater environments.
