

## Standard MTC Certification Galvanized Steel Wires Zinc Coating Of 15g/m2-600g/m2

### Our Product Introduction

#### Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: ISO SGS
- Model Number: Galvanized wire
- Minimum Order Quantity: 1 ton
- Price: Negotiation
- Packaging Details: Standard seaworthy packing
- Delivery Time: 15-21 days
- Payment Terms: L/C, T/T
- Supply Ability: 1000 ton per month

#### Product Specification

- Alloy Or Not: Is Alloy
- Grade: Galvanized
- Surface: Zinc
- Application: Construction
- Diameter: 0.3-10 Mm
- Product Category: Galvanized Steel Wires
- Highlight: **600g/m2 Galvanized Steel Wire,  
15g/m2 Galvanized Steel Wire,  
Standard MTC Certification Galvanized Steel Wire**

## Product Description

### Product Description:

### Features:

Product Name: GI Rope Galvanized Steel Wire 1.6mm 1.8mm Thickness ASTM GB Standard Zinc Coated Wire

Diameter: 0.3-10 Mm

Thickness: 1.6mm 1.8mm

Sample: Could Be Provided

Alloy Or Not: Is Alloy

Features:

Zinc coated steel wire

GI wire rope

Galvanized iron wire

### Technical Parameters:

Color	Silver Color
Model Number	Galvanized wire
Brand Name	Hailian
Product Name	GI Rope Galvanized Steel Wire 1.6mm 1.8mm Thickness ASTM GB Standard Zinc Coated Wire
Alloy Or Not	Is Alloy
Standard	MTC
Application	Construction
Sample	Could Be Provided
Zinc coating	15g/m2-600g/m2
Delivery Time	15-21 days

This galvanized steel wire can also be referred to as gi wire rope, galvanized iron wire, or galvanized metal wire.

### Applications:

The Hailian GI Wires are highly versatile and can be used in a variety of applications. These wires are commonly used in the construction industry for steel reinforcement, such as in the construction of bridges, buildings, and other structures. The Hailian GI Wires are also used in the manufacturing of wire mesh and fencing products.

In addition to construction and manufacturing, the Hailian GI Wires are widely used in the agriculture industry. These wires can be used to create gi wire rope, which is used in farming applications such as vineyard trellising and crop support.

The Hailian GI Wires are made from galvanized iron wire, which provides excellent corrosion resistance. This makes these wires ideal for use in outdoor applications where exposure to the elements is a concern. The thickness of these wires is available in 1.6mm and 1.8mm, and the grade is galvanized. The surface of the Hailian GI Wires is zinc, which provides an added layer of protection against corrosion.

Overall, the Hailian GI Wires are a high-quality product that can be used in a wide range of applications. Whether you are in the construction, manufacturing, or agriculture industry, these wires are a reliable and cost-effective choice for your needs.

### Support and Services:

Our Galvanized Steel Wires product is backed by our technical support and services team who are available to provide assistance and guidance to our customers. We offer a range of services including:

Product installation guidance

Maintenance and repair support

Product customization services

Technical specifications and product testing

Product training and education

Our team is committed to ensuring our customers have a positive experience with our Galvanized Steel Wires product and are available to answer any questions or concerns that may arise.

### Packing and Shipping:

Product Name: Galvanized Steel Wires

**Product Description:** Our galvanized steel wires are high-quality, durable wires that are perfect for a variety of industrial and commercial applications. They are coated with a layer of zinc to protect against corrosion and rust, ensuring that they are long-lasting and reliable.

**Packaging:** Our galvanized steel wires are packaged in sturdy, durable coils that are designed to protect the wires during shipping and storage. The coils are wrapped in plastic to protect against moisture and other environmental factors that could damage the wires.

**Shipping:** We ship our galvanized steel wires to customers all over the world using reliable shipping carriers. Our shipping team carefully packs and secures each coil of wire to ensure that it arrives at its destination in perfect condition. We offer a variety of shipping options to meet the needs of our customers, including expedited shipping for urgent orders.

## FAQ:

**Q1: What is the brand name of the galvanized steel wires?**

A1: The brand name of the galvanized steel wires is Hailian.

**Q2: What is the model number of the galvanized steel wires?**

A2: The model number of the galvanized steel wires is GI Wires.

**Q3: What certifications do the galvanized steel wires have?**

A3: The galvanized steel wires have ISO and SGS certifications.

**Q4: Where is the place of origin of the galvanized steel wires?**

A4: The place of origin of the galvanized steel wires is Shandong.

**Q5: What is the minimum order quantity for the galvanized steel wires?**

A5: The minimum order quantity for the galvanized steel wires is 1 ton.

**Q6: What is the price of the galvanized steel wires?**

A6: The price of the galvanized steel wires is negotiable.

**Q7: What are the payment terms for the galvanized steel wires?**

A7: The payment terms for the galvanized steel wires are L/C and T/T.

**Q8: What is the supply ability of the galvanized steel wires?**

A8: The supply ability of the galvanized steel wires is 1000 ton per month.

**Q9: What is the delivery time of the galvanized steel wires?**

A9: The delivery time of the galvanized steel wires is 3 - 5 work days.

**Q10: What are the packaging details for the galvanized steel wires?**

A10: The packaging details for the galvanized steel wires are standard seaworthy packing.
