

EN Standard Q235B 20# S355 Seamless Carbon Steel Pipes Customization Option 6m Length

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: As request
- Price: Negotiate
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: Discussed
- Supply Ability: 50000 ton/month

Product Specification

- Wall Thickness: As Request
- Type: Seamless/welded
- Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
- Surface Treatment: Standard (Can Be Oiled Or Painted)
- Customization: Available
- Length: 6m Or As Request
- Size: 22 - 720mm OD
- Material: Steel
- Highlight: **20# Seamless Steel Pipe,
EN Standard Seamless Steel Pipe,
Carbon Seamless Steel Pipe**

Product Description:

A Seamless Steel Pipe is a versatile and essential product used in various industries due to its durability, strength, and reliability. This type of pipe is known for its seamless construction, which ensures a smooth interior surface and uniform strength throughout the length of the pipe.

One of the key features of the Seamless Steel Pipe is its wide range of sizes to meet different project requirements. The pipe is available in sizes ranging from 22mm to 720mm OD, providing flexibility for various applications. Whether you need a smaller diameter pipe for precision applications or a larger diameter pipe for heavy-duty projects, the Seamless Steel Pipe can accommodate your needs.

When it comes to wall thickness, the Seamless Steel Pipe offers customization options to meet specific demands. The wall thickness can be tailored according to the requirements of the project, ensuring optimal performance and structural integrity.

The Seamless Steel Pipe is widely used across industries such as construction, machinery, electronics, oil, water, agriculture, and more. Its versatility makes it a preferred choice for applications that demand high performance and reliability. Whether you are building structures, manufacturing machinery, or transporting fluids, the Seamless Steel Pipe is a dependable solution.

In terms of length, the Seamless Steel Pipe typically comes in standard lengths of 6m. However, custom lengths can be requested to suit project specifications. This flexibility in length options allows for seamless integration of the pipe into various applications without the need for extensive modifications.

Manufactured from high-quality steel, the Seamless Steel Pipe is known for its exceptional strength and durability. The steel material used in the production of the pipe provides excellent corrosion resistance, making it suitable for both indoor and outdoor applications. Additionally, the steel material ensures long-term performance and reliability, even in challenging environments.

Whether you require a Seamless Steel Pipe with a diameter of 89mm to 168mm OD or 22mm to 89mm OD, this product offers a reliable solution for your piping needs. With its customizable wall thickness, versatile applications, and durable steel material, the Seamless Steel Pipe is a valuable asset for various projects across different industries.

Features:

- Product Name: 20# Seamless Steel Pipes
- Package: Standard
- Size: 22mm - 89mm OD
- Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
- Surface Treatment: Standard (Can Be Oiled Or Painted)
- Standard: GB EN ASTM DIN JIS

Technical Parameters:

Surface Treatment	Standard (Can Be Oiled Or Painted)
Length	6m Or As Request
Package	Standard
Wall Thickness	As Request
Type	Seamless/welded
Customization	Available
Standard	GB EN ASTM DIN JIS
Size	22 - 720mm OD
Material	Steel
Application	Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.

Applications:

Hailian Seamless Steel Pipes are ideal for a wide range of application occasions and scenarios due to their high quality and reliability. Originating from Shandong, these pipes are certified with ISO, SGS, and MTC certifications, ensuring top-notch performance and durability.

Whether you require 20# Seamless Steel Pipes in 6m length or custom lengths, Hailian has got you covered. These pipes adhere to GB, EN, and ASTM standards, making them suitable for various industries and projects.

With a minimum order quantity that can be tailored to your needs and negotiable pricing, Hailian Seamless Steel Pipes offer flexibility and cost-effectiveness. The standard packaging ensures safe delivery, with a quick turnaround time of 3 - 5 days.

Customization options are available to meet specific requirements, while the seamless/welded type caters to different preferences. With a supply ability of 50000 tons per month, Hailian ensures a steady and reliable source of high-quality steel pipes.

When it comes to payment terms, they are open for discussion to facilitate a smooth transaction process. Trust Hailian for your seamless steel pipe needs and experience the difference in quality, service, and efficiency.
