

45# Q345B Carbon Steel Pipes Customization for Electronics Manufacturing 60mm 73mm OD

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: As request
- Price: Negotiate
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: Discussed
- Supply Ability: 50000 ton/month

Product Specification

- Surface Treatment: Standard (Can Be Oiled Or Painted)
- Customization: Available
- Type: Seamless/welded
- Size: 22 - 720mm OD
- Wall Thickness: As Request
- Material: Steel
- Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
- Package: Standard
- Highlight: **45# Carbon Steel Pipes,
73mm OD Carbon Steel Pipes,
Electronics Manufacturing Carbon Steel Pipes**

Product Description:

The 20# Seamless Steel Pipes are a versatile and highly durable product that is widely used in various industries. Manufactured with precision and expertise, these steel pipes adhere to multiple international standards including GB, EN, ASTM, DIN, and JIS. With an outer diameter ranging from 22mm to 720mm, these pipes are suitable for a wide range of applications. Whether it is for construction projects, machinery manufacturing, electronics industry, or in sectors like oil, water, and agriculture, these seamless steel pipes offer reliable performance and structural integrity. Made from high-quality steel material, these pipes are known for their strength, corrosion resistance, and longevity. The material used, such as MS Pipes Q235, ensures that the pipes can withstand various environmental conditions and heavy-duty usage without compromising on quality. One of the key features of these seamless steel pipes is their surface treatment. Coming with a standard surface finish, these pipes can also be customized further by oiling or painting them according to specific requirements. This allows for better protection against corrosion and enhances the aesthetic appeal of the pipes. Whether you are looking for durable piping solutions for your construction projects, robust components for machinery, or reliable conduits for fluid transportation in various industries, the 20# Seamless Steel Pipes are an ideal choice. Trust in the quality, performance, and versatility of these steel pipes to meet your project needs efficiently and effectively.

Features:

- Product Name: Seamless Steel Pipe
- Surface Treatment: Standard (Can Be Oiled Or Painted)
- Customization: Available
- Material: Steel
- Wall Thickness: As Request (Customized thickness)
- Outer Diameter: 89 - 168mm OD
- Standard: GB EN ASTM
- Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.

Technical Parameters:

Wall Thickness	As Request
Customization	Available
Surface Treatment	Standard (Can Be Oiled Or Painted)
Length	6m Or As Request
Material	Steel
Standard	GB EN ASTM DIN JIS
Application	Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
Size	22 - 720mm OD
Type	Seamless/welded
Package	Standard

Applications:

Hailian Seamless Steel Pipes are versatile and reliable products suitable for various application occasions and scenarios. With a brand name of Hailian and originating from Shandong, these seamless steel pipes are known for their quality and performance. These pipes are manufactured following strict standards, including GB, EN, ASTM, DIN, and JIS, ensuring top-notch quality and reliability. The material used is high-quality steel, making the pipes durable and long-lasting. These pipes are particularly suitable for applications requiring high strength and corrosion resistance. The certification of ISO, SGS, and MTC further attests to the quality and conformity of these seamless steel pipes. Customers can request a minimum order quantity as per their needs, and the price is always negotiable. The packaging details are standard, ensuring safe transportation and storage of the pipes. With a delivery time of 3-5 days, customers can rely on prompt and efficient service. Payment terms are discussed with the customers, offering flexibility and convenience. The supply ability of 50000 tons per month ensures a steady and reliable source of seamless steel pipes. The length of the pipes is 6m or can be customized as per the request of the customer. The standard package ensures convenience and ease of handling. The size ranges from 22mm to 720mm OD, offering a wide range of options for different applications. These seamless steel pipes are particularly suitable for various scenarios, including construction, oil and gas industries, machinery, automotive, and more. The pipes are ideal for conveying fluids, gas, and oil due to their high-quality material and construction. For specific applications requiring MS Pipes Q235 or customized thickness, Hailian Seamless Steel Pipes are the perfect choice. Their adherence to GB EN ASTM standards ensures compatibility and reliability in diverse environments and applications.
