

## EN Standard MS Carbon Steel Pipes 219mm 168mm Q235 235JR

### Our Product Introduction

For more products please visit us on [sheetstainless-steel.com](http://sheetstainless-steel.com)

#### Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: As request
- Price: Negotiate
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: Discussed
- Supply Ability: 50000 ton/month

#### Product Specification

- Length: 6m Or As Request
- Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
- Standard: GB EN ASTM DIN JIS
- Type: Seamless/welded
- Material: Steel
- Size: 22 - 720mm OD
- Package: Standard
- Wall Thickness: As Request
- Highlight: **EN Standard MS Pipes, 219mm MS Pipes, 168mm MS Pipes**

Product Description:

The Seamless Steel Pipe is a high-quality product designed for various industrial applications. It offers exceptional durability and reliability, making it a preferred choice for many industries.

Surface Treatment: The Seamless Steel Pipe comes with a standard surface treatment that can be further customized according to specific requirements. It can be oiled or painted based on the intended use, ensuring enhanced protection against corrosion and extending its lifespan.

Length: This Seamless Steel Pipe is available in a standard length of 6m, providing ample flexibility for different projects. Additionally, the length can be customized as per the customer's request, allowing for a tailored solution that meets specific needs.

Type: The Seamless Steel Pipe is available in both seamless and welded types, offering versatility in application. The seamless design ensures a smooth interior surface, making it ideal for high-pressure applications, while the welded type is suitable for structural purposes.

Customization: Customers have the option to customize the Seamless Steel Pipe according to their unique requirements. Whether it's surface treatment, length, or specific dimensions, customization is available to ensure the product aligns perfectly with the project needs.

Size: The Seamless Steel Pipe is available in a range of sizes, with an outer diameter (OD) ranging from 22mm to 720mm. For applications requiring smaller diameters, the 22mm to 89mm OD range is particularly suitable, offering precise dimensions for various projects.

Overall, the Seamless Steel Pipe offers superior quality, reliability, and versatility for a wide range of industrial applications. With its customizable features, standard surface treatment options, and various size configurations, this product is a dependable choice for projects requiring seamless steel piping solutions.

Features:

- Product Name: Seamless Steel Pipe
- Size: 22 - 720mm OD
- Package: Standard
- Surface Treatment: Standard (Can Be Oiled Or Painted)
- Customization: Available
- Standard: GB EN ASTM DIN JIS

Technical Parameters:

Surface Treatment	Standard (Can Be Oiled Or Painted)
Application	Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
Material	Steel
Standard	GB EN ASTM DIN JIS
Type	Seamless/welded
Package	Standard
Customization	Available
Length	6m Or As Request
Wall Thickness	As Request
Size	22 - 720mm OD

Applications:

Seamless steel pipes from the Hailian brand, originating from Shandong, are a versatile product suitable for various applications in different industries. With certifications including ISO, SGS, and MTC, these pipes are known for their quality and reliability.

The minimum order quantity for these seamless steel pipes is flexible and can be tailored to meet the specific needs of the customer.

Pricing is open to negotiation, making it easier to accommodate different budget requirements. The packaging details adhere to standard practices, ensuring that the product reaches customers in optimal condition.

With a swift delivery time of 3 to 5 days, customers can rely on Hailian seamless steel pipes to meet their project deadlines. Payment terms are discussed based on mutual agreement, providing flexibility for both parties. The supply ability of 50000 tons per month guarantees a steady availability of these high-quality pipes.

These seamless steel pipes come in lengths of 6m as standard, but customization options are available for those needing a different length. Similarly, the wall thickness can be customized to suit specific project requirements, ensuring optimal performance.

The wide range of applications for these seamless steel pipes include construction, machinery, electronics, oil, water, agriculture, and more. This versatility makes them a go-to choice for various projects across different industries. The available sizes range from 22mm to 720mm OD, catering to a diverse set of needs.
