

## 22mm 89mm OD Mild Steel Pipe Alloy Steel Pipe For Industrial Standard GB EN ASTM DIN JIS

### Our Product Introduction

For more products please visit us on [sheetstainless-steel.com](http://sheetstainless-steel.com)

#### Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: As request
- Price: Negotiate
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: Discussed
- Supply Ability: 50000 ton/month

#### Product Specification

- Standard: GB EN ASTM DIN JIS
- Package: Standard
- Surface Treatment: Standard (Can Be Oiled Or Painted)
- Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
- Size: 22 - 720mm OD
- Material: Steel
- Wall Thickness: As Request
- Type: Seamless/welded
- Highlight: **22mm Mild Steel Pipe,  
Industrial Standard Mild Steel Pipe,  
89mm Mild Steel Pipe**

## Product Description

### Product Description:

The Seamless Steel Pipe is a versatile product that offers exceptional performance and reliability in various applications. With customization options available, this steel pipe can be tailored to meet specific requirements, making it ideal for a wide range of industries.

With a size range of 22 to 720mm OD, this seamless steel pipe is suitable for a variety of projects, from small-scale construction to heavy-duty machinery applications. The flexibility in size ensures that the pipe can be used in different scenarios, providing a seamless solution for various needs.

Designed for durability and efficiency, the Seamless Steel Pipe is commonly used in construction, machinery, electronics, oil, water, agriculture, and more. Its seamless design ensures a smooth interior surface, making it ideal for transporting fluids, gases, and other materials with ease and reliability.

Whether for a standard 6m length or a customized length as per request, this steel pipe offers the versatility needed for different projects. The option for customized thickness further enhances its suitability for specific applications, ensuring that it meets the exact requirements of the project at hand.

Available in both seamless and welded types, the Seamless Steel Pipe caters to different preferences and project specifications. The seamless design provides superior strength and corrosion resistance, while the welded option offers cost-effectiveness and versatility in joining methods.

In addition to its standard size range, the Seamless Steel Pipe is also available in a specific range of 89 to 168mm OD, providing more options for projects that require a precise diameter. Combined with customized thickness options, this steel pipe can be adapted to various load-bearing and pressure requirements.

Overall, the Seamless Steel Pipe stands out as a reliable and customizable solution for a wide range of applications. Its robust construction, diverse size range, and customization options make it a versatile choice for industries that demand high performance and durability from their steel piping systems.

### Features:

Product Name: 20# Seamless Steel Pipes

Material: Steel

Surface Treatment: Standard (Can Be Oiled Or Painted)

Wall Thickness: As Request

Standard: GB EN ASTM DIN JIS

Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.

### Technical Parameters:

Length	6m Or As Request
Wall Thickness	As Request
Package	Standard
Size	22 - 720mm OD
Surface Treatment	Standard (Can Be Oiled Or Painted)
Customization	Available
Standard	GB EN ASTM DIN JIS
Material	Steel
Type	Seamless/welded
Application	Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.

### Applications:

When it comes to versatile and reliable steel piping solutions, the Hailian Seamless Steel Pipe is a top choice. With its origins in Shandong, this product is known for its high quality and durability. Holding certifications such as ISO, SGS, and MTC, customers can trust in its performance and standards compliance.

The Hailian Seamless Steel Pipe is suitable for a wide range of applications and scenarios. Its product attributes make it ideal for various industries, including construction, oil and gas, automotive, and machinery. The seamless design ensures a smooth flow of liquids and gases, making it perfect for fluid transportation.

Customers can order the Hailian Seamless Steel Pipe in a minimum quantity as required, and the price is negotiable based on the order specifications. The packaging details follow standard industry practices to ensure safe delivery to the customers. With a delivery time of 3 to 5 days, clients can rely on prompt service to meet their project timelines.

Payment terms for the Hailian Seamless Steel Pipe can be discussed to accommodate the needs of different customers. The supply ability of 50000 tons per month ensures a steady availability of the product in the market. The product meets various standards including GB, EN, ASTM, DIN, and JIS, reflecting its versatility and compatibility with different systems.

For those requiring specific customization, the Hailian Seamless Steel Pipe offers tailored solutions to meet individual project requirements. The material used is high-quality steel, ensuring strength and longevity. The available sizes range from 22mm to 720mm

OD, catering to a wide range of needs.  
Whether in need of 6m lengths or custom sizes, the Hailian Seamless Steel Pipe offers flexibility to suit different project demands. With an OD range of 22mm to 89mm, customers can find the perfect fit for their applications. Trust in the Hailian brand for seamless steel piping solutions that deliver on quality, performance, and reliability.
