

89mm 168mm OD Carbon Steel Pipe MS Pipes Construction Customization

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: As request
- Price: Negotiate
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: Discussed
- Supply Ability: 50000 ton/month

Product Specification

- Material: Steel
- Size: 22 - 720mm OD
- Wall Thickness: As Request
- Type: Seamless/welded
- Surface Treatment: Standard (Can Be Oiled Or Painted)
- Length: 6m Or As Request
- Package: Standard
- Standard: GB EN ASTM DIN JIS
- Highlight: **89mm Carbon Steel Pipe,
Construction Carbon Steel Pipe,
168mm Carbon Steel Pipe**

Product Description:

The Seamless Steel Pipe is a versatile product that is essential in various industries due to its high-quality material and construction. It is available in different sizes to suit specific needs, ranging from 219mm to 720mm OD and 89mm to 168mm OD, ensuring compatibility with a wide range of applications.

One of the key features of the Seamless Steel Pipe is its surface treatment. The product comes with a standard surface treatment, but it can also be oiled or painted based on individual requirements. This flexibility allows for customization and ensures that the pipe meets specific aesthetic and functional needs.

Whether you require seamless or welded pipes, this product has you covered. The Seamless Steel Pipe is available in both seamless and welded types, offering versatility and options to cater to different project specifications. The seamless design provides a smooth interior surface, making it ideal for applications requiring high pressure or strength.

When it comes to packaging, the Seamless Steel Pipe is delivered in a standard package to ensure safe transportation and handling. The standard packaging helps protect the product during transit and storage, maintaining its quality and integrity until it reaches its final destination.

For those looking for customized solutions, the Seamless Steel Pipe offers the option for customization. Whether you need specific dimensions, thickness, or other features tailored to your project requirements, customization is available to ensure the product meets your exact specifications.

Manufactured from high-quality steel, the Seamless Steel Pipe is durable, reliable, and resistant to corrosion, making it suitable for a wide range of industrial applications. The material quality ensures long-lasting performance and strength, providing a cost-effective solution for various projects.

With a focus on precision and quality, the Seamless Steel Pipe is designed to meet industry standards and specifications, ensuring consistency and reliability in performance. The product undergoes rigorous testing and quality control measures to guarantee its durability and integrity, meeting the highest industry standards.

In conclusion, the Seamless Steel Pipe is a versatile and reliable product that offers a range of features to meet diverse project requirements. From surface treatment options to customization possibilities, this product provides flexibility and quality for a wide range of industrial applications. Whether you need standard sizes or customized solutions, the Seamless Steel Pipe is a dependable choice for your piping needs.

Features:

Product Name: Seamless Steel Pipe -----

Package: Standard

Material: Steel

Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.

Standard: GB EN ASTM DIN JIS

Customization: Available

Size: 89 - 168mm OD

Thickness: Customized

Technical Parameters:

Customization -----	Available -----
Application	Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
Type	Seamless/welded
Standard	GB EN ASTM DIN JIS
Wall Thickness	As Request
Material	Steel
Length	6m Or As Request
Surface Treatment	Standard (Can Be Oiled Or Painted)
Size	22 - 720mm OD
Package	Standard

Applications:

Hailian Seamless Steel Pipes are ideal for a wide range of application occasions and scenarios due to their exceptional quality and versatility. These pipes, originating from Shandong, are manufactured according to GB EN ASTM standards and are available in various diameters ranging from 22mm to 89mm OD. The product is certified with ISO, SGS, and MTC, ensuring top-notch quality and reliability.

One of the key advantages of Hailian Seamless Steel Pipes is their suitability for multiple industries and projects. These MS Pipes Q235 are commonly utilized in industries such as construction, oil and gas, machinery, automotive, and more. Whether it's for structural purposes, fluid transportation, or high-pressure applications, these pipes deliver excellent performance.

With a minimum order quantity tailored to your needs, the pricing for Hailian Seamless Steel Pipes is negotiable, making them a cost-effective solution for both small-scale and large-scale projects. The packaging details are standard, guaranteeing that the pipes are well-

protected during transportation and storage.

Thanks to a supply ability of 50000 tons per month, customers can rely on a consistent and timely delivery of the seamless steel pipes. The delivery time is quick, typically ranging from 3 to 5 days, ensuring that your projects stay on schedule. Payment terms are flexible and can be discussed to accommodate your specific requirements.

Whether you require seamless or welded pipes, Hailian offers both types to suit your project needs. The surface treatment is standard, with the option to have the pipes oiled or painted as per your preference. The pipes adhere to various standards such as GB, EN, ASTM, DIN, and JIS, meeting the quality requirements for different regions and industries.

In conclusion, Hailian Seamless Steel Pipes are a reliable and versatile choice for a wide range of applications. Their exceptional quality, adherence to international standards, and customizable features make them a top pick for projects requiring durable and efficient piping solutions.
