

GB EN ASTM DIN JIS Standard Seamless Steel Pipe For Agriculture Within 22 720mm OD

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

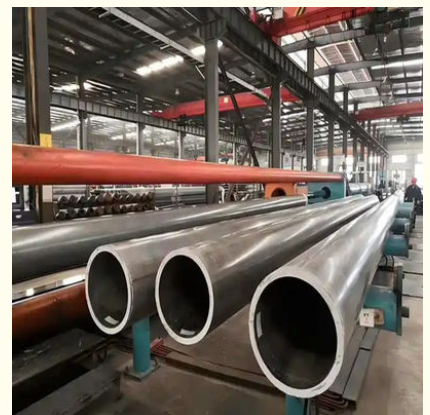

Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: As request
- Price: Negotiate
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: Discussed
- Supply Ability: 50000 ton/month

Product Specification

- Surface Treatment: Standard (Can Be Oiled Or Painted)
- Type: Seamless/welded
- Length: 6m Or As Request
- Customization: Available
- Standard: GB EN ASTM DIN JIS
- Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
- Package: Standard
- Material: Steel
- Highlight: **Agriculture Seamless Steel Pipe ,
GB Seamless Steel Pipe ,
JIS Seamless Steel Pipe**

Product Description

Product Description:

The Seamless Steel Pipe offered is a high-quality product designed for various industrial applications. With a length of 6m or as per customer request, this seamless/welded pipe is versatile and suitable for a wide range of uses. The surface treatment is standard, but it can also be oiled or painted based on specific requirements.

Manufactured to meet GB, EN, and ASTM standards, these 20# Seamless Steel Pipes are known for their durability and reliability. The pipe has an outer diameter ranging from 219mm to 720mm, making it suitable for different projects and industries.

Its seamless design ensures a smooth interior surface, which is beneficial for applications in construction, machinery, electronics, oil, water, agriculture, and more. The pipe's seamless construction also enhances its strength and resistance to pressure, making it a preferred choice for demanding environments.

Whether used in structural applications, fluid transportation, or other industrial purposes, this Seamless Steel Pipe delivers consistent performance and reliable results. Its adherence to international standards guarantees its quality and compatibility with various systems and equipment.

Customers can rely on this product for its consistent quality, precise dimensions, and excellent finish. The pipe's surface can be further customized with oil or paint coatings to suit specific project requirements or environmental conditions.

With a size range of 22mm to 720mm OD, this Seamless Steel Pipe offers flexibility in choosing the right diameter for different applications. Its wide diameter range makes it suitable for both large-scale industrial projects and smaller operations, providing a versatile solution for various needs.

In conclusion, the Seamless Steel Pipe is a reliable and versatile product that meets the highest industry standards. Whether used in construction, machinery, electronics, oil, water, agriculture, or other fields, this pipe offers durability, strength, and performance for a wide range of applications.

Features:

Product Name: Seamless Steel Pipe

Length: 6m Or As Request

Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.

Package: Standard

Wall Thickness: As Request

Material: Steel

Additional Specifications:

22mm - 89mm OD

GB EN ASTM standard

20# Seamless Steel Pipes

Technical Parameters:

Customization	Available
Material	Steel
Size	22 - 720mm OD
Type	Seamless/welded
Standard	GB EN ASTM DIN JIS
Application	Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
Package	Standard
Length	6m Or As Request
Surface Treatment	Standard (Can Be Oiled Or Painted)
Wall Thickness	As Request

Applications:

Seamless Steel Pipes by Hailian are versatile products suitable for a wide range of application occasions and scenarios due to their high quality and various attributes. These pipes, originating from Shandong, come with certifications such as ISO, SGS, and MTC, ensuring their compliance with international standards.

The seamless steel pipes are ideal for industries requiring customized thickness and a specific outer diameter range of 89mm to 168mm. This makes them perfect for applications where precision and specific dimensions are crucial.

With a minimum order quantity that can be tailored to your needs and negotiable pricing, Hailian seamless steel pipes offer flexibility in procurement. The standard packaging ensures secure transportation, and a quick delivery time of 3 to 5 days makes them suitable for urgent projects.

Discussing payment terms allows for a convenient transaction process, while the impressive supply ability of 50000 tons per month guarantees a steady availability of these high-quality steel pipes.

These pipes come in both seamless and welded types, meeting different project requirements. The adherence to standards such as GB,

EN, ASTM, DIN, and JIS further enhances their compatibility with various industries and applications. Furthermore, the option for customization enables you to tailor these seamless steel pipes to your specific needs. Whether in standard lengths of 6m or as requested, Hailian ensures that the packaging and products meet your exact requirements.
