

Seamless Steel Pipe For Superior Steel Structures In Construction Industry

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: As request
- Price: Negotiate
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: Discussed
- Supply Ability: 50000 ton/month

Product Specification

- Standard: GB EN ASTM DIN JIS
- Customization: Available
- Type: Seamless/welded
- Size: 22 - 720mm OD
- Material: Steel
- Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
- Length: 6m Or As Request
- Wall Thickness: As Request
- Highlight: **Construction Industry Seamless Steel Pipe,
Superior Steel Structures Seamless Steel Pipe**

Product Description:

The Seamless Steel Pipe is a versatile and durable product designed for a wide range of applications in various industries. Made from high-quality steel material, this seamless pipe offers superior performance and reliability. Whether used in construction, machinery, electronics, oil, water, agriculture, or other industries, this pipe is engineered to meet the demands of diverse applications. With a standard packaging option, the Seamless Steel Pipe is delivered in a secure and convenient manner, ensuring its quality and integrity during transportation and storage. The standard package provides ease of handling and storage for the pipe, making it an ideal choice for different projects and applications.

Available in a length of 6m or as per customer request, this Seamless Steel Pipe offers flexibility and customization options to meet specific project requirements. Whether a standard length is sufficient or a custom length is needed, this pipe can be tailored to fit the exact specifications of the project, ensuring a precise and efficient installation process.

The material used in the manufacturing of the Seamless Steel Pipe is high-grade steel, known for its strength, durability, and corrosion resistance. This ensures that the pipe can withstand various environmental conditions and mechanical stresses, making it a reliable and long-lasting solution for different applications.

One of the key features of the Seamless Steel Pipe is its customized wall thickness, allowing for greater flexibility and adaptability in different scenarios. Whether a specific thickness is required for structural integrity or flow efficiency, this pipe can be tailored to meet the exact needs of the project, ensuring optimal performance and functionality.

For applications that demand superior quality and performance, the Seamless Steel Pipe is an excellent choice. Whether used in construction projects, machinery applications, electronics manufacturing, oil and gas industries, water supply systems, agriculture, or other sectors, this pipe delivers exceptional performance and reliability.

Manufactured from high-quality materials such as MS Pipes Q235 and 45# Carbon Steel Pipes, the Seamless Steel Pipe offers a combination of strength, durability, and versatility. These materials are known for their excellent mechanical properties and corrosion resistance, making the pipe suitable for a wide range of demanding applications.

In conclusion, the Seamless Steel Pipe is a high-quality and reliable product that meets the diverse needs of various industries. With its standard packaging, customizable length, steel material, customized wall thickness, and wide application range, this pipe is a practical and efficient solution for construction, machinery, electronics, oil, water, agriculture, and many other sectors.

Features:

- Product Name: Seamless Steel Pipe
- Surface Treatment: Standard (Can Be Oiled Or Painted)
- Package: Standard
- Material: Steel
- Size: 22 - 720mm OD
- Length: 6m Or As Request

Technical Parameters:

Type	Seamless
Size	22 - 720mm OD
Application	Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
Length	6m Or As Request
Material	Steel
Standard	GB EN ASTM DIN JIS
Customization	Available
Wall Thickness	As Request (Customized thickness available)
Surface Treatment	Standard (Can Be Oiled Or Painted)
Package	Standard

Applications:

Hailian Seamless Steel Pipes, originating from Shandong, are versatile and high-quality products suitable for various industries and applications. Our pipes are manufactured with 45# carbon steel, meeting the GB, EN, and ASTM standards, ensuring durability and reliability.

The seamless steel pipes find their application in a wide range of occasions and scenarios, including construction, machinery, electronics, oil, water, agriculture, and more. Whether you need MS pipes Q235 for structural projects or for transporting fluids and gases, our seamless pipes are the ideal choice.

With certifications including ISO, SGS, and MTC, customers can trust the quality and performance of Hailian Seamless Steel Pipes. Our supply ability of 50000 tons per month ensures that your requirements are met efficiently and promptly.

Customers can order our seamless steel pipes in varying lengths, with the standard length being 6m, or as per their specific requests. The size ranges from 22mm to 720mm OD, catering to different needs and applications.

Surface treatment options include standard finish, while pipes can also be oiled or painted based on requirements. The wall thickness can

be customized as per the project specifications, ensuring a perfect fit for diverse applications. For ordering, the minimum order quantity is flexible as per request, and pricing is negotiable. Packaging details adhere to standard practices, guaranteeing safe delivery of the pipes. With a delivery time of 3 to 5 days, customers can rely on prompt service. Payment terms can be discussed to suit mutual convenience.
