

Welded Seamless Steel Pipe Customization For ASTM Standard

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Shandong
- Brand Name: Hailian
- Certification: ISO SGS MTC
- Minimum Order Quantity: As request
- Price: Negotiate
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: Discussed
- Supply Ability: 50000 ton/month

Product Specification

- Size: 22 - 720mm OD
- Type: Seamless/welded
- Surface Treatment: Standard (Can Be Oiled Or Painted)
- Standard: GB EN ASTM DIN JIS
- Length: 6m Or As Request
- Customization: Available
- Package: Standard
- Material: Steel
- Highlight: Customization Seamless Steel Pipe,
Welded Seamless Steel Pipe,
ASTM Standard Seamless Steel Pipe

Product Description:

The Seamless Steel Pipe is a high-quality product that meets various industry standards, including GB, EN, ASTM, DIN, and JIS. With a size range of 22 - 720mm OD, this pipe is versatile and suitable for a wide range of applications. One of the key features of this Seamless Steel Pipe is its customization option, allowing customers to tailor the product to their specific requirements. Whether it's a unique size or a special material composition, customization is available to meet individual needs. The standard length of the Seamless Steel Pipe is 6m, providing convenience and ease of handling during installation. However, customers also have the flexibility to request a different length based on their project requirements. This adaptability makes the Seamless Steel Pipe a versatile choice for various construction and industrial projects. When it comes to the material, the Seamless Steel Pipe is made of high-quality MS Pipes Q235, ensuring durability and reliability in various applications. The use of premium materials enhances the performance and longevity of the pipe, making it a cost-effective solution for long-term use. In addition to its standard size range of 22 - 720mm OD, the Seamless Steel Pipe offers customization options for wall thickness as per customer requirements. This flexibility allows for precise engineering and design specifications, ensuring that the pipe meets the exact needs of the project. Overall, the Seamless Steel Pipe is a top-quality product that combines versatility, durability, and customization options to meet the diverse needs of customers across different industries. Whether it's for construction, infrastructure, or industrial applications, this pipe offers reliable performance and efficient installation, making it a preferred choice for various projects.

Features:

Product Name: Seamless Steel Pipe
Material: Steel
Size: 22 - 720mm OD
Customization: Available
Wall Thickness: As Request
Application: Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.

Technical Parameters:

Length	6m Or As Request
Customization	Available
Package	Standard
Application	Construction, Machinery, Electronics, Oil, Water, Agriculture Etc.
Wall Thickness	As Request
Standard	GB EN ASTM DIN JIS
Material	Steel
Type	Seamless/welded
Size	22 - 720mm OD
Surface Treatment	Standard (Can Be Oiled Or Painted)

Applications:

Hailian Seamless Steel Pipes are versatile and high-quality products that can be used in a variety of applications and scenarios due to their excellent attributes. These pipes are produced in Shandong and come with certifications such as ISO, SGS, and MTC, ensuring their quality and reliability. The product is ideal for industries requiring Customized thickness pipes, with sizes ranging from 22mm to 720mm OD. Specifically, the 89mm to 168mm OD range caters to a wide range of needs, making them suitable for various projects. One common application for Hailian Seamless Steel Pipes is in the construction industry, where they are used for structural purposes. Their durability and strength make them perfect for building projects that require sturdy materials. Additionally, the pipes can be Customized in length to meet specific project requirements. Another scenario where these pipes excel is in the manufacturing industry, particularly for the production of machinery and equipment. The 45# Carbon Steel Pipes are well-suited for this purpose, providing the necessary support and reliability for heavy-duty machinery. Moreover, the Seamless Steel Pipes from Hailian are widely used in the oil and gas sector due to their corrosion resistance and high-pressure handling capabilities. The surface treatment options, including standard, oiled, or painted, ensure that the pipes can withstand harsh environments. Customers can benefit from the flexible ordering options offered by Hailian, with a Minimum Order Quantity that can be tailored to their needs. Pricing is negotiable, and payment terms are discussed to provide a seamless transaction process. The Supply Ability of 50000 tons per month ensures that orders can be fulfilled promptly, with a quick Delivery Time of 3 to 5 days. For added convenience, the Seamless Steel Pipes are packaged using Standard packing details for safe transportation. The product meets various international standards such as GB, EN, ASTM, DIN, and JIS, guaranteeing its compliance with industry requirements. In conclusion, Hailian Seamless Steel Pipes are a reliable and versatile product suitable for a wide range of applications and scenarios.

Whether it's for construction, manufacturing, or oil and gas industries, these pipes offer exceptional quality, customization options, and durability for various project needs.
