

## 0.2mm Thickness Ss 304 Coil 1500mm Width With Customized Length

Our Product Introduction

For more products please visit us on [sheetstainless-steel.com](http://sheetstainless-steel.com)

### Basic Information

- Place of Origin: China
- Brand Name: Xuda
- Model Number: 304, 316, 401

### Product Specification

- Usage: Construction Use
- Length: Customized
- Special Use: High-strength Steel Plate
- Powder Or Not: Not Powder
- Transport Package: Standard Packing
- Certificate: SGS
- Processing: Cutting, Bending, Welding, Decoiling
- Surface Treatment: Polished
- Highlight: **Customized Length ss 304 coil,  
0.2mm Thickness ss 304 coil,  
1500mm Width ss 304 coil**

## Product Description

### Product Description:

The processing options for this stainless steel coil are versatile, including cutting, bending, welding, and decoiling. This allows for seamless integration into your construction projects, making it the ideal choice for various structural applications.

Designed for special use as a high-strength steel plate, this coil delivers superior performance and reliability, even in demanding environments. Its high-strength properties make it a reliable choice for projects that require added durability and structural integrity.

One of the standout features of this stainless steel coil is its polished surface treatment. This surface treatment not only enhances the aesthetic appeal of the coil but also provides added protection against corrosion, ensuring a long-lasting and visually appealing finish.

Whether you are working on a large-scale construction project or a smaller residential build, this hot rolled stainless steel coil is the perfect choice. Its versatility, durability, and high-strength properties make it a reliable and efficient solution for all your construction needs.

Invest in quality and performance with our hot rolled stainless steel coil. With a polished surface and customized length, this coil is ready to meet the demands of your construction projects, providing outstanding results every time.

### Applications:

The hot rolled stainless steel coil models from Xuda are suitable for heavy-duty applications where strength and toughness are paramount. These coils are processed with cutting, bending, welding, and decoiling capabilities, providing flexibility in shaping and forming according to specific requirements. The  $\pm 0.03$  thickness tolerance ensures precision in construction projects, where consistency is crucial.

The polished surface treatment on Xuda stainless steel coils enhances their visual appeal, making them suitable for both functional and decorative purposes. Whether it is for architectural structures, interior design elements, or industrial equipment, the polished surface adds a touch of sophistication to the final product.

Whether you are looking to build structural components, decorative elements, or industrial machinery, Xuda stainless steel coils offer the reliability and performance needed for a wide range of applications. The not powder-coated attribute ensures a clean and professional look, while the high-quality materials and processing techniques guarantee long-lasting durability in demanding environments.

### Support and Services:

Our Product Technical Support and Services for the Stainless Steel Coil include:

- Assistance with product installation and setup
- Troubleshooting and resolving technical issues
- Providing maintenance and care guidelines
- Offering product training and educational resources
- Continuous product updates and enhancements

### Packing and Shipping:

Product Packaging:

The stainless steel coil is carefully wrapped and sealed in protective materials to prevent any damage during transit. It is then placed in a sturdy cardboard box with cushioning to ensure safe delivery.

Shipping Information:

We offer fast and reliable shipping for our stainless steel coil product. Orders are processed promptly and shipped out within 1-2 business days. Customers will receive tracking information to monitor the delivery status of their order.

### FAQ:

**Q: What is the brand name of this Stainless Steel Coil product?**

**A:** The brand name is Xuda.

**Q: What are the available model numbers for this Stainless Steel Coil product?**

**A:** The available model numbers are 304, 316, and 401.

**Q: Where is this Stainless Steel Coil product manufactured?**

**A:** This product is manufactured in China.

**Q: Is this Stainless Steel Coil product made of high-quality stainless steel?**

**A:** Yes, this product is made of high-quality stainless steel.

**Q: Can this Stainless Steel Coil product be used for industrial applications?**

**A:** Yes, this product is suitable for various industrial applications.
