- Width: 1000mm-3000mm
- Species: Plate
- Highlight: **Cutting Service Stainless Steel Plate,  
2B/No1 Surface Stainless Plate,  
304 Technique Stainless Steel Plate**

## Product Description

### Product Description:

Available in both Cold Rolled and Hot Rolled options, the Stainless Steel Sheet Plate is designed to meet the specific requirements of different projects. The Cold Rolled variant is known for its smooth surface finish and dimensional accuracy, making it ideal for applications that require precise measurements. On the other hand, the Hot Rolled variant offers a rougher surface texture and is often chosen for projects that prioritize strength and toughness.

As a Stainless Steel Plate, this product is characterized by its flat and rectangular shape, making it easy to fabricate and install. It can be used for various purposes, including structural components, decorative panels, kitchen equipment, and more.

When it comes to packaging, the Stainless Steel Sheet Plate is typically offered in a Standard Export Package to ensure safe transportation and delivery. However, custom packaging options can also be arranged based on the specific requirements of the customer.

One of the key features of the Stainless Steel Sheet Plate is its customizable size. As per the customer's requirements, this product can be produced in various dimensions to suit different project needs. Whether you need a small piece for a DIY project or a large sheet for an industrial application, the Stainless Steel Sheet Plate can be tailored to meet your exact specifications.

In conclusion, the Stainless Steel Sheet Plate is a reliable and versatile product that offers exceptional performance in terms of durability, corrosion resistance, and aesthetics. Whether you need a Cold Rolled or Hot Rolled variant, a Standard Export Package, or a custom size, this product can be customized to meet your specific needs. Choose the Stainless Steel Sheet Plate for your next project and experience the benefits of high-quality stainless steel material.

### Applications:

Hailian Stainless Steel Sheet Plate is a versatile product that can be used in a wide range of applications and scenarios due to its high quality and durability. Whether you are in the construction, automotive, or manufacturing industry, our stainless steel plates are an excellent choice for your projects.

With models available in 304, 316, and 401, our stainless steel plates are suitable for various needs and requirements. Made in Wuxi, our products are certified with ISO, SGS, and MTC, ensuring the highest standards of quality and performance.

Our stainless steel plates have a minimum order quantity of 1 ton and are priced competitively between 1500 - 1750 USD/ton. The packaging details are standard, and we offer a quick delivery time of 3 - 5 days for your convenience. Payment terms include 30% T/T and 70% before shipping.

With a supply ability of 50000 ton/month, we can meet your demands no matter the scale of your project. Third-party inspections from SGS and ISO guarantee the reliability and authenticity of our products.

Our stainless steel plates are produced using cold rolled or hot rolled techniques, allowing for a wide range of applications. Available in sizes tailored to customer requirements, our steel grades include 304, 316, 316L, 430, 201, and 310s.

Whether you need stainless steel plates for architectural purposes, machinery manufacturing, or kitchen equipment, Hailian Stainless Steel Sheet Plate is your go-to product. Contact us today to discuss your needs and place an order for top-quality stainless steel plates.
