

1 Inch Customizable Thickness DC51D Galvanized Steel Pipes Tubes 20 Ft For Long Lasting Performance

Our Product Introduction

For more products please visit us on sheetstainless-steel.com

Basic Information

- Place of Origin: Shandong
- Brand Name: Galvanized steel pipe
- Certification: ISO SGS MTC
- Minimum Order Quantity: 1 ton
- Price: 600 - 650 USD
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

Product Specification

- OD: 1mm - 720mm
- Length: 6m Or As Request
- Material: Galvanized Steel
- Shape: Round Square Pipe
- Standard: ASTM GB ASME JIS DIN EN
- Special Pipe: Available
- Technique: Hot-dipped
- Application: Construction, Machinery, Electronics, Light Industry, Etc.
- Highlight: Customizable DC51D Galvanized Pipe Tubes, DC51D Galvanized Steel Pipes Tubes, 1 inch galvanized pipe 20 ft

Product Description

Product Description:

The Galvanized Steel Pipe is a versatile and durable product suitable for a wide range of applications. With a standard length of 6m or the option for customization based on your specific requirements, this product offers flexibility to meet your project needs.

One of the standout features of this Galvanized Steel Pipe is its availability in special pipe configurations. This option allows you to choose a design that best suits your project requirements, ensuring optimal performance and functionality.

Utilizing the hot-dipped technique, this Galvanized Steel Pipe boasts a high-quality finish that enhances its corrosion resistance and overall longevity. The hot-dipped process ensures a uniform coating that provides superior protection against environmental elements, making it ideal for various outdoor and industrial applications.

Compliant with industry standards, the Galvanized Steel Pipe meets the requirements of ASTM, GB, ASME, JIS, DIN, and EN specifications. This adherence to standards ensures that you are investing in a product that meets quality benchmarks and performance expectations.

With an outer diameter (OD) ranging from 1mm to 720mm, this Galvanized Steel Pipe offers versatility in sizing to accommodate a wide range of applications. Whether you require a smaller diameter for precision projects or a larger diameter for heavy-duty applications, this product can meet your specific size requirements.

For applications that demand a specific thickness range, the Galvanized Steel Pipe offers options between 57mm and 89mm, providing you with the flexibility to choose the appropriate thickness for your project needs. This range ensures that you can select the optimal thickness to meet structural requirements and performance specifications.

The Galvanized Steel Pipe is constructed from DC51D galvanized steel, a material known for its durability and strength. DC51D Galvanized Pipes are renowned for their resistance to corrosion and wear, making them ideal for demanding applications where reliability is paramount.

Featuring a zinc layer with options of 80g, 100g, or 120g, this Galvanized Steel Pipe offers enhanced protection against rust and corrosion. The zinc layer serves as a barrier between the steel pipe and external elements, ensuring long-term durability and performance even in harsh environments.

Whether you require a standard 6m length or custom dimensions, the Galvanized Steel Pipe is a reliable and versatile choice for a wide range of applications. With its special pipe availability, hot-dipped technique, adherence to industry standards, versatile OD range, and options for specific thickness and zinc layers, this product offers the durability and performance you need for your projects.

Applications:

Galvanized Steel Pipes, originating from Shandong, are versatile products suitable for a wide range of applications. With certifications including ISO, SGS, and MTC, these pipes are known for their quality and reliability. The minimum order quantity of 1 ton makes them accessible for various needs.

Galvanized steel pipes find their application in multiple occasions and scenarios due to their durability and corrosion-resistant properties. They are commonly used in construction projects, fencing, water supply systems, agricultural irrigation, and industrial applications. Thanks to their galvanized surface treatment, these pipes offer enhanced protection against rust and weathering, making them ideal for outdoor use. The ability to customize the thickness based on specific requirements further adds to their appeal and suitability for various projects.

With a standard packaging and quick delivery time of 3-5 days, these pipes are convenient to procure and use. The competitive pricing ranging from 600 to 650 USD, along with flexible payment terms of 30% T/T and 70% before shipping, make them a cost-effective choice for buyers.

Whether you need them for standard applications or specialized projects, Galvanized Steel Pipes Tubes are designed to meet the highest standards. Their compliance with ASTM, GB, ASME, JIS, DIN, and EN standards ensures their compatibility with diverse systems and requirements.

Moreover, the availability of special pipes adds to the versatility of these products, catering to unique needs and scenarios. With a remarkable supply ability of 50000 tons per month, customers can rely on a consistent and uninterrupted supply of these high-quality pipes.

Customization:

Product Customization Services for Galvanized Steel Pipe:

Brand Name: Galvanized steel pipe

Place of Origin: Shandong

Certification: ISO SGS MTC

Minimum Order Quantity: 1 ton

Price: 600 - 650 USD

Packaging Details: Standard packing

Delivery Time: 3 - 5 days

Payment Terms: 30% T/T 70% before shipping

Supply Ability: 50000 ton/month

Length: 6m Or As Request

Special Pipe: Available

Application: Construction, Machinery, Electronics, Light Industry, Etc.

Material: Galvanized Steel

Standard: ASTM GB ASME JIS DIN EN

Thickness: 57mm - 89mm, 57mm - 89mm, 22mm - 48mm

Packing and Shipping:

Product Packaging: -----

The Galvanized Steel Pipe is carefully wrapped in protective materials to prevent any scratches or damages during transportation. It is then placed in a sturdy cardboard box with adequate cushioning to ensure safe delivery.

Shipping:

We offer reliable shipping services for the Galvanized Steel Pipe product. The package will be securely sealed and labeled for easy identification. Customers can track their orders online and expect timely delivery to their specified address.

FAQ:

Q: What is the brand name of the galvanized steel pipe?

A: The brand name of the galvanized steel pipe is Galvanized steel pipe.

Q: Where is the galvanized steel pipe produced?

A: The galvanized steel pipe is produced in Shandong.

Q: What certifications does the galvanized steel pipe have?

A: The galvanized steel pipe is certified with ISO, SGS, and MTC.

Q: What is the minimum order quantity for the galvanized steel pipe?

A: The minimum order quantity for the galvanized steel pipe is 1 ton.

Q: What is the price range for the galvanized steel pipe?

A: The price range for the galvanized steel pipe is between 600 - 650 USD.
