

## Hot-dipped galvanized tubing 1mm -500mm thickness Long-Lasting Dependable Products

### Our Product Introduction

For more products please visit us on [sheetstainless-steel.com](http://sheetstainless-steel.com)

#### Basic Information

- Place of Origin: Shandong
- Brand Name: Galvanized steel pipe
- Certification: ISO SGS MTC
- Minimum Order Quantity: 1 ton
- Price: 600 - 650 USD
- Packaging Details: Standard packing
- Delivery Time: 3 - 5 days
- Payment Terms: 30% T/T 70% before shipping
- Supply Ability: 50000 ton/month

#### Product Specification

- Length: 6m Or As Request
- Connection: Standard
- OD: 1mm - 720mm
- Surface Treatment: Galvanized
- Technique: Hot-dipped
- Material: Galvanized Steel
- Application: Construction, Machinery, Electronics, Light Industry, Etc.
- Standard: ASTM GB ASME JIS DIN EN
- Highlight: Hot-dipped galvanized tubing,  
1mm galvanized tubing,  
500mm galvanised steel tube

## Product Description

### Product Description:

The Galvanized Steel Pipe is a versatile and durable product that is ideal for various industrial and construction applications. With a length of 6m or as per request, this pipe offers flexibility and convenience in installation. Whether you need a standard size or a custom length, this product can be tailored to suit your specific requirements.

One of the standout features of the Galvanized Steel Pipe is its availability as a special pipe. This means that you can order a pipe with unique specifications or configurations to meet your project needs. Whether you require a specific diameter, thickness, or coating, the special pipe option allows you to customize the product to your exact specifications.

Made from high-quality galvanized steel, this pipe boasts exceptional strength and corrosion resistance. The galvanization process involves coating the steel with a layer of zinc, which provides added protection against rust and corrosion. With a zinc layer of 80g, 100g, or 120g, you can choose the level of corrosion resistance that best suits your application.

When it comes to connection options, the Galvanized Steel Pipe offers standard connectivity for easy installation and compatibility with existing systems. Whether you are replacing an old pipe or installing a new one, the standard connection ensures a secure and reliable fit.

The thickness of the Galvanized Steel Pipe can be customized as per your requirements, ranging from 108mm to 720mm. This flexibility in thickness allows you to select the optimal size for your specific application, ensuring that the pipe meets the structural and load-bearing requirements of your project.

Constructed from DC51D galvanized steel, the Galvanized Steel Pipe is designed to deliver superior performance and longevity. The DC51D grade steel offers excellent weldability and formability, making it ideal for a wide range of applications. Whether you need a durable pipe for plumbing, structural support, or fluid transportation, the DC51D Galvanized Pipes are a reliable choice.

### Applications:

The Galvanized Steel Pipe is a versatile product suitable for a wide range of applications due to its durable construction and reliable performance. Whether you are working on a construction project, agricultural application, or industrial setting, this product from Shandong is a top choice.

With certifications such as ISO, SGS, and MTC, you can trust the quality and reliability of this Galvanized Steel Pipe. The minimum order quantity of 1 ton makes it accessible for projects of all sizes, while the price range of 600 - 650 USD offers great value for money.

Thanks to its standard packaging and quick delivery time of 3 - 5 days, you can count on receiving your Galvanized Steel Pipes Tube promptly and in perfect condition. The payment terms of 30% T/T and 70% before shipping provide flexibility and security for your transactions.

With a supply ability of 50000 tons per month, you can rely on a steady source of Galvanized Steel Pipe for your ongoing projects. The connection is standard, and special pipes are also available to meet your specific requirements.

Surface treated with a hot-dipped galvanized coating and options for 80g, 100g, or 120g zinc layers, these Galvanized Steel Pipes Tube offer excellent corrosion resistance and a long lifespan. The technique used ensures a high-quality finish, while the thickness can be customized as per your needs.

### Customization:

Product Customization Services for Galvanized Steel Pipe:

**Brand Name:** Galvanized steel pipe

**Place of Origin:** Shandong

**Certification:** ISO SGS MTC

**Minimum Order Quantity:** 1 ton

**Price:** 600 - 650 USD

**Packaging Details:** Standard packing

**Delivery Time:** 3 - 5 days

**Payment Terms:** 30% T/T 70% before shipping

**Supply Ability:** 50000 ton/month

**Material:** Galvanized Steel

**Application:** Construction, Machinery, Electronics, Light Industry, Etc.

**OD:** 1mm - 720mm

**Thickness:** As Request (Customized thickness available)

**Special Pipe:** Available

**Length:** 6m 12m

**Zinc Layer:** 80g 100g 120g

### Packing and Shipping:

Product Packaging:

Each galvanized steel pipe is carefully wrapped in protective material to prevent scratches and damage during transportation. The pipes are then packed into sturdy cardboard boxes with proper cushioning to ensure they arrive in perfect condition.

Shipping:

We offer fast and reliable shipping services for our galvanized steel pipes. Orders are processed promptly and shipped out within 1-3 business days. Customers can choose from various shipping options to suit their needs, including standard, expedited, and express delivery. Tracking information will be provided so you can monitor the status of your shipment.

### FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Galvanized steel pipe.  
Q: Where is this product manufactured?  
A: This product is manufactured in Shandong.  
Q: What certifications does this product have?  
A: This product is certified with ISO, SGS, and MTC.  
Q: What is the minimum order quantity for this product?  
A: The minimum order quantity for this product is 1 ton.  
Q: What is the price range for this product?  
A: The price range for this product is between 600 - 650 USD.  
Q: What are the packaging details for this product?  
A: The packaging details for this product include standard packing.  
Q: What is the estimated delivery time for this product?  
A: The estimated delivery time for this product is 3 - 5 days.  
Q: What are the payment terms for purchasing this product?  
A: The payment terms for purchasing this product are 30% T/T deposit and 70% payment before shipping.  
Q: What is the supply ability of this product?  
A: The supply ability of this product is 50000 ton/month.
